

Is 021lm.com a scam? TrustSniffer's high-risk assessment: 0/100

021lm.com

Verdict

0

OUT OF 100

CRITICAL RISK

021lm.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 70%.

What this site appears to be

Official website for a China-based sports company offering event organization, broadcasting, and sports merchandise. Contains company information, services, news, team bios, testimonials and contact details (phone/email). No login or financial transaction prompts detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 021lm.com served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2014.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents itself as the official site of a China-based sports company offering sports-event organization, live broadcasting, sports merchandise, corporate services, and related customer support. Its homepage describes a business model based on event planning and execution, broadcast production, branded sporting goods, and service contracts, while claiming a Guangdong headquarters, international sports partnerships, and broad corporate experience.

Scam/Impersonation Risk

Confirmed external threat intelligence creates a serious contradiction to the otherwise conventional corporate presentation. The domain has a confirmed blacklist hit and multiple malicious detections, including 17 malicious and one suspicious detection, while the site itself presents no login, credential-harvesting, cryptocurrency, or financial-transaction workflow. The benign page content therefore does not resolve the external reputation conflict; it may represent a legitimate corporate presentation, but the available evidence does not establish that

the site is safe for sensitive interaction. No separate identity contradiction or brand-impersonation finding was observed.

EVIDENCE

- Domain registration record: registered 2015 (~10.93 years old).
- Web-archive record: 31 snapshots spanning 2014–2026, with 13 years tracked.
- Homepage analysis identified a corporate sports presentation with no login form, hidden sensitive form, or financial transaction prompt.
- External reputation telemetry recorded 17 malicious detections and 1 suspicious detection, together with a confirmed blacklist hit.

Regulatory Verification Notes

The homepage identifies the business as “中国·星空综合(股份)有限公司” and claims that it was established in 2015 in Guangdong, with services covering sports broadcasting, event organization, merchandise development, and customized corporate solutions. It also claims reliance by more than 300 companies and “30 Years Of Experience”; these are on-site marketing assertions rather than independently verified corporate or regulatory evidence. The supplied page evidence contains no stated license claim or license number, and the disclosure state is therefore unclear for any regulated activity that might arise from the services offered. Ownership privacy is an administrative limitation, not by itself evidence of misconduct. The confirmed external blacklist and malicious-detection findings remain the dominant risk consideration.

EVIDENCE

- Homepage title identifies the site as the official website of 中国·星空综合(股份)有限公司.
- Homepage content claims establishment in 2015, a Guangdong headquarters, more than 300 corporate customers, and 30 years of experience.
- Hosting infrastructure resolved to AS134175, operated as “SH2206-AP - UNIT A17,9/F SILVERCORP INT_L TOWER 707-713 NATHAN RD, HK.”
- The site's transport encryption uses a DV certificate issued by YE2, valid to 2026-09-02.

What to Verify Next

Before any business engagement, an independent registry check should match the legal name, establishment details, address, and authorized representatives stated on the site. Any licensing or permissions relevant to broadcast rights, merchandise sales, event services, or cross-border contracting should be confirmed with the applicable authority rather than inferred from the website. Contact channels should be validated through an independent, offline route, and the domain's blacklist status should be reassessed by the responsible security team before the site is permitted for sensitive use.

EVIDENCE

- The homepage is the principal source of the site's corporate identity and service claims and should be compared with independent corporate records.
- The site contains one subscription-contact form; no sensitive form was detected.
- The page presents corporate services and merchandise operations but does not provide a license number in the supplied content.

Summary Verdict

The website has a **critical trust posture** for enterprise or financial use. Its established registration and coherent corporate content are insufficient to offset the confirmed external threat detections and blacklist conflict. The operator's real-world identity remains unverified, so the site should not be treated as trustworthy for sensitive interaction.

Infrastructure Integrity

The site resolves directly to a single likely origin IP and has no detected CDN or WAF edge layer. This provides limited infrastructure-based mitigation: transport encryption is present, but the hosting arrangement itself does not offset the external reputation risk.

EVIDENCE

- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN or WAF vendor was detected.
- The resolved infrastructure is registered through APNIC in Hong Kong.

Closing Assessment

Interaction should remain limited to passive viewing; credentials, account access, and financial information should not be submitted unless independent identity and threat-status checks produce a clear resolution.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 021lm.com.

- The request stayed on 021lm.com. It was not redirected to another domain. CLEAR
- Registration is published under Gname.com Pte. Ltd.. CLEAR
- DNS for this domain is served by share-dns.com, across 2 name servers. NOTED
- The registration is paid up to 2027-09-15. NOTED
- The earliest public archive of this site is from 2014-09-08. CLEAR
- It is hosted on SH2206-AP, from a server in HK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 021lm.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
