Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

04 Tattoo Nha Trang is a local commercial website for an appointment-based tattoo studio presenting tattooing, custom design, professional piercing, laser tattoo removal, artist profiles, a portfolio gallery, hygiene statements, and an online booking channel.

Scam/Impersonation Risk

The website content is consistent with a local tattoo business and does not display obvious credential-harvesting, login, or payment-collection mechanisms. However, this benign presentation is outweighed by confirmed external threat detections and blacklist coverage affecting the domain, creating a material risk for sensitive interaction. The associated IP also carries substantial abuse reporting, although those reports are attributed to shared provider infrastructure rather than specifically to the studio; that attribution limits what can be concluded about the operator while leaving the signal relevant. No conflicting legal-entity names or page-level brand-impersonation indicators were observed. No contradictions were observed in the site's service presentation itself, but the external detections constitute a confirmed contradiction to ordinary trust assumptions.

EVIDENCE

- The homepage presents 04 Tattoo Nha Trang as a tattoo, piercing, design, and laser-removal studio, with artist profiles and a gallery; its single form is a contact form rather than a login or password form.
- External scanning recorded 14 malicious detections and 1 suspicious detection for the domain, including a Tier-1 threat detection; the domain is also present on an external blacklist.
- The hosting IP 103.28.36.220 has 208 abuse reports from 70 distinct users, with a confidence score of 68; the reports are attributed to shared NhanHoa provider infrastructure.
- The domain was registered on 2023-03-06 and is approximately 3.45 years old; archived coverage records 15 snapshots from 2023-07-24 through 2026-03-10 across 4 tracked years.

Regulatory Verification Notes

The site appears to operate as a local personal-services business rather than a financial or investment service. Its available pages identify the studio, artists, services, contact details, and booking process, but the supplied content does not establish an independently verified legal operator or disclose a license authority or license number. That is a regulatory and identity-verification gap, not by itself evidence of a scam. The separate broker-reputation dataset produced no name match, which provides no additional adverse broker signal but also does not verify the tattoo studio's legal standing.

EVIDENCE

- The site's service and artist pages describe tattooing, custom design, piercing, laser removal, hygiene, and safety claims, but no licensing authority or license number is presented in the supplied content.
- The domain registration lists Nhan Hoa Software Company Ltd. as registrar, with the registrant recorded as "le hoang phuong" and no organization name.
- Hosting resolves through AS131353, NhanHoa Software company, VN; the registry is APNIC and the hosting country is VN.
- The site's TLS certificate is issued by Sectigo Public Server Authentication CA DV R36, uses DV validation, and is valid through 2026-10-03.

What to Verify Next

Independent confirmation should precede any appointment deposit, payment, or submission of personal information. The studio's physical premises and telephone contact should be validated through an offline or independently sourced channel, and applicable local hygiene, piercing, and laser-treatment requirements should be confirmed with the relevant authority. The external reputation issue should also be resolved before treating the domain as an acceptable channel for sensitive interaction.

EVIDENCE

- The contact page publishes a physical address and telephone number that can be checked independently of the website.
- The booking workflow is described as an appointment contact form and was not observed collecting passwords or other sensitive credentials.
- The service pages make hygiene and safety claims that should be matched against the studio's on-site practices and applicable local requirements.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. Although the site's presentation is coherent with a local tattoo studio, the confirmed external threat and blacklist signals prevent the website from being treated as a trusted operational channel, and the real-world operator remains unverified.

Infrastructure Integrity

The site resolves directly to a likely origin host without a detected CDN or WAF layer. It is hosted by NhanHoa Software company in Vietnam; the absence of an intermediary protective layer provides no meaningful mitigation against the external reputation concerns.

Closing Assessment

Sensitive actions should be deferred until the studio and its official communication channel have been independently confirmed and the domain-level threat findings have been satisfactorily resolved.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 04tattoostudio.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
