

Is 05241.top a scam? TrustSniffer's high-risk assessment: 0/100

05241.top

Verdict

0

OUT OF 100

CRITICAL RISK

05241.top shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Chinese-language gambling landing page for 'K8官网' promoting live casino games, claiming Macau DICJ licensing, 20 years of brand history, and a sports partnership. Provides multiple entry links (线路①/②/③) but lacks verifiable contact, regulatory links, or transactional transparency.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 05241.top served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This Chinese-language website is a gambling and casino landing page branded “K8官网,” presenting live casino and sports-betting access through multiple entry links and promotional claims about licensing, brand history, and sports affiliation; its apparent business model is to direct visitors toward wagering funded by user deposits.

Scam/Impersonation Risk

The site presents several material contradiction signals. External threat intelligence records a confirmed blacklist and multiple malicious detections, creating a direct security concern that outweighs the presence of ordinary transport encryption. The homepage is a thin, conversion-focused landing page offering “线路①/②/③” entry paths without a clear product description, verifiable operator contact, or transactional explanation. Its claims of “20 years” of brand history and an official sports partnership are not supported by evidence on the page, while the deposit-before-service model exposes users to potential financial loss. No conflicting legal-entity names or confirmed brand-impersonation finding were observed, but the combination of external malicious detections, blacklist status, unsupported claims, and high-stakes deposit mechanics warrants a clearly cautionary posture.

EVIDENCE

- External reputation telemetry records 18 malicious detections, a confirmed blacklist, and a threat signal from three evaluated security providers.
- The homepage contains only 154 characters of visible text and presents three entry links labelled “线路①,” “线路②,” and “线路③,” with no clear product or operating detail.
- Archive-reconciled domain age is 3.3210130047912387 years; 55 snapshots were recorded across 2 tracked years, from 2023-04-22 to 2024-03-21.
- The homepage claims “20年品牌 信誉保障” and an official partnership with Atlético Madrid’s Asian operations, but supplies no supporting evidence for either claim.

Regulatory Verification Notes

The landing page claims compliance with and licensing by the Macau Gaming Inspection and Coordination Bureau (DICJ), but the available content provides no license number, regulatory link, operator identity, or other independently checkable disclosure. This is a significant transparency gap for a gambling service, particularly because the site directs visitors toward wagering without presenting clear terms, payment conditions, or responsible-gambling information. The available evidence does not independently verify the real-world operator identity. A clean match was not identified in the supplied third-party broker-reputation dataset; that absence is contextual only and does not validate licensing or legality.

EVIDENCE

- The homepage states that the service operates under a DICJ licence and regulation, but no licence number or verification link is shown.
- The homepage title and visible branding identify “K8官网,” while no legal entity, registered business address, or responsible operator is disclosed.
- The site is hosted on AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The site uses a DV TLS certificate issued by WE1, valid to 2026-10-30T08:48:02+00:00.

What to Verify Next

Before any sensitive interaction, an independent check should confirm whether the claimed DICJ licence corresponds to the exact operating entity and domain. The claimed sports affiliation should be validated through the partner’s independently controlled corporate channels, and the full deposit, withdrawal, dispute, and age-restriction terms should be obtained before considering any wagering activity. Official contact channels should be confirmed through an independent offline or separately sourced route rather than through the landing page alone.

EVIDENCE

- The homepage is the only supplied page with substantive content and contains no linked regulatory or corporate verification material.
- The homepage provides entry links but no visible deposit, withdrawal, dispute-resolution, or transaction terms.
- The homepage makes the licensing and sports-partnership claims without documentary support.

Summary Verdict

The website has a **critical trust posture** and should be treated as unsuitable for login, credential submission, deposits, or other financial interaction. The available evidence is materially inconsistent with a dependable online gambling service, and the site’s apparent legitimacy and operator identity remain unverified.

Infrastructure Integrity

Cloudflare CDN/WAF infrastructure fronts the site, with observed traffic terminating at CDN edge addresses rather than a directly exposed origin. This provides a useful layer of transport and network protection, but it is only a mitigating infrastructure feature and does not validate the site’s content, operator, or external reputation.

Closing Assessment

Prospective users and organizations should restrict activity to passive observation, avoid sensitive interaction, and require independent regulatory, corporate, and payment-channel confirmation before any engagement.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 05241.top.

- The request stayed on 05241.top. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-02-05. NOTED
- The earliest public archive of this site is from 2023-04-22. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 05241.top at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
