

Is 053kp.cc a scam? TrustSniffer's high-risk assessment: 0/100

053kp.cc

Verdict

0

OUT OF 100

CRITICAL RISK

053kp.cc shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Simple parked-domain landing page indicating the domain 053kp.cc is expired and may be available at Dynadot auctions. Minimal visible content and no interactive features.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 053kp.cc served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

053kp.cc is a parked-domain landing page presenting the domain as expired and potentially available through Dynadot auctions. It provides only minimal informational text, Terms of Service, and Privacy Policy links, with no active product, financial service, or visitor-facing transaction function.

Scam/Impersonation Risk

The site has a critical sensitive-interaction risk posture because the domain is confirmed on external blacklists and has multiple malicious detections from security services. These signals materially outweigh the benign appearance of the parked page. No brand impersonation or conflicting legal-entity identities were observed, but the current content does not explain or neutralize the external threat indicators; the apparent absence of an active service also means the present page should not be treated as evidence that future use of the domain would be safe.

EVIDENCE

- External security evaluation recorded 15 malicious detections from 20 evaluated results, with Fortinet, Kaspersky, and Sophos among the flagged vendors.
- The domain was marked as present on an external blacklist, with the blacklist condition confirmed by two sources.
- The domain registration record states 2025-07-20 and an age of 1.08 years; archival continuity records a reconciled domain age of 2.31 years.
- Web archives contain 17 snapshots spanning 2024–2025, covering 2 tracked years.

Regulatory Verification Notes

The available legal and identity material is limited to the parked page's Terms of Service and Privacy Policy links. No regulated financial activity, license claim, licensing authority, or license number is presented, so there is no basis to treat the domain as a verified regulated provider. The real-world operator identity also remains unverified. A valid domain-validated TLS certificate and identifiable hosting infrastructure are technical positives, but they do not establish ownership, regulatory status, or legitimacy.

EVIDENCE

- The homepage is identified as a parked / for-sale page and states that the domain has expired and may be available at Dynadot auctions.
- The homepage contains no login form, sensitive form, or interactive financial-service feature.
- The site is served from AS133618, TRELLIAN-AS-AP – Trellian Pty. Limited, AU.
- TLS is issued by YR1 at DV validation level and is valid to 2026-10-18.

What to Verify Next

Any proposed transaction should be checked directly through Dynadot's independently accessed official services rather than through assumptions derived from the parked page. Security teams should separately confirm the domain's current reputation and ownership status before permitting access from managed environments. Credentials, payment details, wallet authorizations, or other sensitive information should not be provided unless a legitimate operator and a clearly documented purpose have been independently established.

EVIDENCE

- The homepage describes the domain as expired and potentially available at auction, indicating that its current presentation is not an operating service.
- Automated browser runs recorded 2 successful runs, with 0 external XHR requests and 0 wallet-provider detections.
- The page behavior recorded no hidden forms, password forms sent externally, clipboard hijacking, or suspicious inline scripts.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. The site's limited parked-domain content does not provide sufficient legitimacy evidence to overcome the confirmed external threat and blacklist indicators, while

the operator’s real-world identity remains unverified. Passive viewing of the landing page does not validate the domain for account, credential, payment, or other sensitive use.

Infrastructure Integrity

The domain resolves directly to one likely origin IP, with no CDN or WAF detected and no edge-IP layer identified. Hosting is attributed to Trellian Pty. Limited in Australia; this identifiable hosting arrangement is a technical observation only and does not mitigate the confirmed reputation risk.

Closing Assessment

The domain should be treated as unsuitable for sensitive interaction, with any legitimate ownership or transaction claim independently validated before further engagement.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 053kp.cc.

- The request stayed on 053kp.cc. It was not redirected to another domain. CLEAR
- Registration is published under DYNADOT LLC. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-20. NOTED
- The earliest public archive of this site is from 2024-04-27. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 053kp.cc at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
