

Is 054kp.cc a scam? TrustSniffer's high-risk assessment: 0/100

054kp.cc

Verdict

0

OUT OF 100

CRITICAL RISK

054kp.cc shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Minimal parked-domain landing page for 054kp.cc stating the domain may be for sale and referencing Dynadot auctions. No active service, forms, or social presence detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What 054kp.cc served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

054kp.cc is a minimal parked-domain landing page that tells visitors the domain may be for sale and references Dynadot auctions, rather than presenting an operating business, product, or active customer service. Its apparent purpose is domain resale, brokerage, or related parking monetization.

Scam/Impersonation Risk

The site is subject to a **confirmed blacklist signal** and multiple external malicious detections, which is the decisive risk factor despite the absence of an active login, payment, or service workflow on the observed page. The landing page itself does not show brand impersonation, phishing forms, or an identifiable operating service; however, the combination of domain-level malicious detections and blacklist status means the domain should be treated as unsuitable for credentials, financial activity, or other sensitive interaction. No separate identity contradiction was observed, but the real-world operator remains unverified.

EVIDENCE

- Domain reputation assessment recorded 16 malicious detections and a confirmed blacklist hit across external security sources.
- The homepage is classified as a parked, for-sale landing page with no active service, forms, or social presence.
- Historical records show 18 archive snapshots spanning 2024–2026, covering 3 years; no suspicious repurposing was identified.
- The domain registration record lists Dynadot Inc as registrar, with registration in 2025 and an age of approximately 1.08 years.

Regulatory Verification Notes

The available page provides Terms of Service and Privacy Policy links but does not identify an operating legal entity, regulatory authority, or license number. Because the site is presented as a domain-sale page rather than a financial or commercial service, the absence of a licensing disclosure is a transparency gap rather than evidence of a regulated activity. Ownership and governance details remain opaque, and the site's identity is not independently verified. No broker match was identified in the available third-party reputational context.

EVIDENCE

- The homepage states that the domain may be for sale and refers visitors to Dynadot auctions; it does not present a corporate name or license disclosure.
- The visible legal navigation consists of Terms of Service and Privacy Policy links.
- Hosting infrastructure is AS133618, TRELLIAN-AS-AP — Trellian Pty. Limited, AU.
- The site uses a DV TLS certificate issued by YR1, valid through 2026-10-18.

What to Verify Next

Any proposed domain purchase should be confirmed through an independently accessed Dynadot auction or registrar record rather than through an unsolicited page interaction. If the domain later presents a commercial, investment, or financial service, the purported operator should be matched to an applicable official corporate and licensing registry before any account, payment, or contractual engagement. Official contact channels should also be confirmed through an independent route.

EVIDENCE

- The homepage's stated business purpose is domain sale, making independent confirmation of the auction or brokerage listing the relevant first check.
- The available legal pages should be reviewed for a named entity, governing jurisdiction, and enforceable transaction terms if an offer is presented.

Summary Verdict

The site carries a critical trust posture driven by confirmed external threat intelligence and an unverified operating identity. The observed page is informational and inactive in form, but that limited surface does not offset the domain-level security warnings or support sensitive engagement.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no detected CDN or WAF layer and no edge-IP separation. This provides no meaningful infrastructure-based mitigation against the external reputation concerns.

Closing Assessment

Interaction should be limited to passive observation until the domain’s intended ownership, sale status, and any subsequent operating purpose have been independently confirmed.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 054kp.cc.

- The request stayed on 054kp.cc. It was not redirected to another domain. CLEAR
- Registration is published under Dynadot Inc. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-20. NOTED
- The earliest public archive of this site is from 2024-04-28. CLEAR

- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 054kp.cc at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
