

Is 062kp.cc a scam? TrustSniffer's high-risk assessment: 0/100

062kp.cc

Verdict

0

OUT OF 100

CRITICAL RISK

062kp.cc shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 70%.

What this site appears to be

Simple parked domain landing page stating the domain is expired/for sale and referencing Dynadot auctions. No active service, forms, or social links present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

What 062kp.cc served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a parked domain landing page for 062kp.cc that tells visitors the domain has expired, may be for sale, and may be available through Dynadot auctions; it does not present an active product, service, or transaction workflow.

Scam/Impersonation Risk

Contrary signals are present and materially outweigh the limited benign content observed on the homepage. External security intelligence recorded malicious detections and confirmed blacklist placement, creating a direct security concern even though the page itself contains no login form, sensitive form, or active service. The domain's apparent sale status limits the observed interaction surface but does not establish that the domain is safe for future use or that any party presenting it as an operational service is authentic. No brand impersonation was identified in the page content, and no conflicting legal-entity names were observed; nevertheless, the confirmed blacklist signal supports a clearly cautionary posture.

EVIDENCE

- The homepage is identified as an expired, parked domain that may be for sale through Dynadot auctions.
- External scanning recorded 16 malicious detections and a confirmed blacklist hit.
- The domain was registered on 2025-07-20 and is recorded as approximately 1.08 years old.
- Web-archive records contain 31 snapshots spanning 2024–2025, covering 2 years of tracked activity.

Regulatory Verification Notes

The site provides only basic Terms of Service and Privacy Policy links and does not present an operating company name, regulatory registration number, or license claim. Because the page is a domain-sale landing page rather than an active financial or commercial service, the absence of a license claim is a transparency gap rather than proof of unlawful activity; however, the available evidence does not independently verify the real-world operator. Ownership and governance information therefore require independent confirmation before any engagement. The valid transport certificate and identifiable hosting arrangement are technical facts, not evidence of regulatory standing.

EVIDENCE

- The homepage contains approximately 203 characters of text and provides no active service, transaction form, or social profile.
- The site is hosted on AS133618, TRELLIAN-AS-AP / Trellian Pty. Limited, AU.
- The TLS certificate is issued by YR1 at DV validation level and is valid to 2026-10-18.

What to Verify Next

Before any sensitive interaction, an independent registry or corporate-records check should establish the legal operator and confirm that any proposed activity is within the relevant licensing framework. Security teams should also validate the domain's current reputation through current enterprise controls and confirm that any future operational version is reached through an independently authenticated channel. Any payment, credential, or account request should be assessed only after those checks produce a consistent operator identity and current security disposition.

EVIDENCE

- The only operational claim presently visible is that the domain is expired and offered for sale.
- The available legal-page set is limited to Terms of Service and Privacy Policy content.
- The site's identity verification status remains unverified.

Summary Verdict

The overall posture is **critical risk**, with the evidence unsuitable for trusting sensitive interactions. The site may be passively viewed as a domain-sale notice, but its apparent legitimacy and any future operator identity are not established.

Infrastructure Integrity

The site has no identified CDN or WAF layer and resolves through a directly observable hosting path with one likely origin address. This infrastructure provides limited mitigation against direct exposure and cannot offset the adverse external security reputation.

EVIDENCE

- Infrastructure resolution identified no CDN, no WAF, and one likely origin IP.
- The resolved hosting country is Australia, using the APNIC registry.

Closing Assessment

Prospective engagement should remain limited to passive observation until independent identity, regulatory, and current security checks produce a consistent and satisfactory result.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 062kp.cc.

- The request stayed on 062kp.cc. It was not redirected to another domain. CLEAR
- Registration is published under Dynadot Inc. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-20. NOTED
- The earliest public archive of this site is from 2024-05-06. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 062kp.cc at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
