

Is 06iis.com a scam? TrustSniffer's high-risk assessment: 0/100

06iis.com

Verdict

0

OUT OF 100

CRITICAL RISK

06iis.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Regional education bureau website in Chinese providing news, announcements, recruitment notices, and links to related government and education resources.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	13 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	0 reports AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	8.1 years old Registered history	CLEAR

What 06iis.com served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents itself as a Chinese-language regional education and public-service portal, offering education news, government notices, teacher-recruitment information, administrative guidance, school activity reports, and links to education resources. Its apparent purpose is informational rather than commercial, although the homepage title “game365备用网址” is inconsistent with that presentation.

Scam/Impersonation Risk

Confirmed external threat intelligence identifies the domain as blacklisted, with multiple malicious and suspicious detections, including detections from two major security vendors. This is a material contradiction to the benign government-portal content presented on the homepage. No separate identity contradiction, phishing form, or explicit brand-impersonation indicator was identified in the supplied page analysis; however, the mismatch between the page title and the claimed education function further weakens confidence in the site’s authenticity. The domain’s established registration period and limited historical continuity do not offset the confirmed external threat findings. Evidence:

- Homepage: the page title is “game365备用网址,” while the visible content concerns regional education administration, schools, recruitment, and public notices.
- External reputation telemetry: 13 malicious detections, 2 suspicious detections, 2 tier-1 vendor detections, and a confirmed blacklist status.
- Domain registration: registered 2018-07-09 (~8.11 years old).
- Web archive: 11 snapshots spanning 2019-08-23 to 2026-01-31, covering 8 tracked years.

Regulatory Verification Notes

The site’s visible structure resembles a public education bureau, with sections for government disclosure, administrative services, education news, research notices, and public participation. That content is not sufficient to independently establish the real-world operator, and the available identity verification remains unverified. No licensing claim or license number is presented; for an apparent government information portal, the relevant verification question is instead whether the domain is an authorized endpoint of the stated education authority. The absence of an apparent broker or financial-services affiliation is contextual only and does not resolve the external security contradiction. Evidence:

- Homepage navigation: includes “政务公开,” “办事指南,” “网上办事,” “网上办公,” education news, and policy-document sections.
- Homepage content: contains dated school activities, teacher-training notices, recruitment-related material, and administrative announcements.
- Page controls: 0 sensitive forms, no login form, no hidden forms, and no untrusted form destination were detected.

What to Verify Next

Before relying on announcements, recruitment information, downloads, or administrative instructions, an independent official government directory or offline contact route should confirm that this domain is an authorized website of the named education authority. Any documents obtained from the site should be checked through a trusted government channel before opening or acting on them. Sensitive interaction should remain suspended unless the domain’s authorization and the current security status are independently confirmed. Evidence:

- Official authority directory: confirm that the domain is listed as an authorized public-service endpoint.
- Independent contact route: cross-check the site’s stated administrative contact details using a separately sourced government directory.
- Homepage and notices: validate important announcements and downloadable materials against the authority’s independently confirmed official publication channel.

Summary Verdict

The overall posture is critical, with the site unsuitable for sensitive interaction. Its apparently legitimate informational presentation does not overcome the confirmed external security contradiction, and the real-world operator has not been independently verified.

Infrastructure Integrity

The site resolves directly to hosting associated with PEG-LA – PEG TECH INC in the United States, with no CDN detected and one likely origin address exposed. This infrastructure provides no evident CDN/WAF

mitigation, while the confirmed transport encryption protects the connection only; it does not establish site legitimacy. Evidence:

- Hosting infrastructure: served from AS398823, PEG-LA – PEG TECH INC, US; resolved IP 38.165.102.140.
- TLS certificate: issued by YR1, domain validation (DV), valid to 2026-11-02T02:10:29+00:00.

Closing Assessment

Treat the site as read-only pending independent authorization and security confirmation; credentials, downloads, and financial or other sensitive activity should not be undertaken through it.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 06iis.com.

- The request stayed on 06iis.com. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo, LLC. CLEAR
- DNS for this domain is served by dnsowl.com, across 3 name servers. NOTED
- The registration is paid up to 2027-07-09. NOTED
- The earliest public archive of this site is from 2019-08-23. CLEAR
- It is hosted on PEG-LA, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 06iis.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
