

Is 100milesmanhattan.com a scam? TrustSniffer's high-risk assessment: 0/100

100milesmanhattan.com

Verdict

0

OUT OF 100

CRITICAL RISK

100milesmanhattan.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 70%.

What this site appears to be

Indonesian-language gambling blog focused on online slot games and other casino titles; appears to be an affiliate/promotional site encouraging users to play and deposit on external casino platforms.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 100milesmanhattan.com served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2014.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

100milesmanhattan.com presents an Indonesian-language gambling and casino-content blog promoting online slots, Sicbo, blackjack, poker, and related betting topics. Its homepage uses win-focused promotional language, including claims about “fast and safe” winnings and high-return slot games, and appears designed to direct visitors toward external casino platforms where deposits may be required.

Scam/Impersonation Risk

Confirmed external reputation contradictions make this site unsuitable for sensitive interaction. External intelligence records a blacklist hit and malicious detections from multiple security providers, while the page analysis identifies a gambling-affiliate model with aggressive winning or return-oriented claims, limited verifiable assurances, opaque value flow, complex referral pathways, and a deposit-before-service pattern. The homepage does not present a direct login form, hidden sensitive form, or detected brand impersonation, so the evidence does not establish that it is impersonating a named brand; however, those mitigating observations do not offset the confirmed external reputation findings. The apparent age and provenance of the domain also

require clarification: the current registration record is recent, whereas archival records indicate substantially longer continuity.

EVIDENCE

- The homepage is titled “100milesmanhattan - Temukan Slot Gacor Terbaik dengan Kemenangan Cepat dan Aman” and promotes PG Soft slot content, Sicbo, blackjack, and online casino play.
- External reputation evaluation recorded 10 malicious detections, 0 suspicious detections, and a confirmed blacklist result.
- The domain registration record shows creation on 2025-04-03 with an age of 1.38 years; archival continuity records show a domain-age assessment of 12.14236824093087 years.
- Web-archive records contain 21 snapshots from 2014-06-27 through 2025-07-20, covering 12 years, with a maximum observed gap of 7 years.

Regulatory Verification Notes

The site’s apparent role is promotional or affiliate-based rather than that of a clearly identified licensed gambling operator. The reviewed homepage does not state a licensing authority or license number, leaving the operator relationship, destination platforms, and applicable regulatory jurisdiction unresolved. This is a material disclosure gap for a site encouraging gambling-related deposits, but it is a verification issue rather than, by itself, proof of fraud. The domain is registered through GoDaddy.com, LLC; the site’s transport security is provided by a valid domain-validated certificate, which protects the connection but does not validate the business or its regulatory status. Independent broker-context data supplied for this assessment produced no match.

EVIDENCE

- The homepage presents casino and betting content but does not display a licensing authority or license number in the reviewed material.
- The registration record identifies GoDaddy.com, LLC as registrar and records expiration on 2027-04-03.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by YE1, validation level DV, valid to 2026-09-25.

What to Verify Next

Before any deposit, account creation, or redirection to a betting platform, an independent check should identify the legal operator of each destination service and confirm its authorization with the relevant gambling regulator. The advertised referral relationship and payment flow should be confirmed directly with the destination operator using contact details obtained independently from that operator’s official materials. Any claimed winnings, return rates, or game-provider affiliations should be treated as marketing claims unless supported by authoritative operator documentation and applicable terms.

EVIDENCE

- The homepage directs attention to online casino categories and promotional game articles rather than presenting a clearly identified operating entity.
- The page analysis describes likely referral monetization and deposits made on external betting platforms.
- The reviewed site contains one search form and no observed sensitive login form, so destination-platform verification remains the relevant control before financial interaction.

Summary Verdict

The overall posture is **critical trust risk**, driven by converging external malicious-reputation findings and a high-risk gambling-affiliate presentation with insufficiently verifiable assurances. The real-world operator identity remains unverified, and the available evidence does not support treating the site as a trustworthy channel for sensitive or financial activity.

Infrastructure Integrity

Cloudflare CDN/WAF infrastructure is confirmed, with observed traffic terminating on Cloudflare edge addresses rather than an independently observable origin. This provides a degree of infrastructure protection and can reduce direct exposure of the origin, but it is only a mitigating technical control and does not establish site legitimacy.

Closing Assessment

The appropriate enterprise posture is to avoid credentials, deposits, and other sensitive interaction with the site or destinations reached through it unless the operator, authorization, and payment arrangements have been independently validated.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

- The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 100milesmanhattan.com.

- The request stayed on 100milesmanhattan.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-03. NOTED
- The earliest public archive of this site is from 2014-06-27. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 100milesmanhattan.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
