Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website is the official-looking online presence for Ten Greek Plates, a Greek restaurant in Brighton, Victoria, presenting menus, reservations, catering and functions, gift cards, opening hours, promotions, contact information, and takeaway ordering through external delivery platforms.

Scam/Impersonation Risk

No blacklist, phishing, impersonation, or conflicting-identity contradiction was observed. The homepage presents a coherent local hospitality model rather than a high-risk financial or credential-harvesting service: it supports restaurant reservations, catering enquiries, event functions, gift cards, and food orders, with no login form or sensitive data-collection form detected. One isolated external malicious classification and shared-provider abuse reporting are reputational signals, but they are not corroborated by the broader findings and apply to shared hosting infrastructure rather than being specifically attributed to Ten Greek Plates. Overall, the site presents low apparent scam or impersonation risk, while the operator's real-world identity remains independently unverified.

EVIDENCE

- Registration continuity dates to 2015, with an authoritative domain age of 11.48 years.
- The web archive records 80 snapshots from 2015-02-23 through 2025-11-23, covering 11 years with a maximum recorded gap of 1 year.
- The homepage contains no reported fraud indicators, brand-impersonation indicators, login form, hidden form, or externally hosted password form.
- External reputation telemetry records 24 abuse reports against shared Squarespace infrastructure and 1 malicious detection, with 0 suspicious detections and no confirmed blacklist or phishing result.

Regulatory Verification Notes

The reviewed content identifies an ordinary restaurant and catering business, not a service whose ordinary operation would inherently require financial-services licensing. No licensing claim or registration number was identified in the reviewed site content; this is a transparency item for ordinary business verification, not evidence of fraud. The domain records name Domain Directors Pty Ltd trading as Instra as registrar and THIS TIME PTY LTD as owner, but those records do not independently prove that the website operator and the real-world venue are the same entity. No matching broker warning was identified in the available third-party context.

EVIDENCE

- Domain registrar: Domain Directors Pty Ltd trading as Instra; recorded owner: THIS TIME PTY LTD.
- The site is served from AS53831, SQUARESPACE - Squarespace, Inc., US.
- TLS uses issuer YR1 with DV validation and is valid to 2026-10-03T19:00:19+00:00.
- The reviewed homepage provides restaurant, contact, reservation, catering, and event information but no identified licensing claim or registration number.

What to Verify Next

Before credential or payment interactions, an independent check should confirm that the venue name, physical location, telephone details, and business entity correspond through an offline or independently sourced channel. Any applicable business-registration or hospitality requirements should be checked against the relevant Australian or Victorian register, and gift-card, cancellation, refund, and payment-protection terms should be confirmed before purchase. Reservations or orders routed through established delivery platforms should be completed only within the platform's verified checkout flow.

EVIDENCE

- The homepage provides the venue's menus, opening information, promotions, and reservation pathway for comparison with independently sourced venue details.
- The contact and reservation functions provide channels that can be cross-checked through an offline route.
- The gift-card and ordering features create specific payment, cancellation, and refund terms that should be reviewed before purchase.

Summary Verdict

The overall posture is **high trust with low apparent scam risk**. Available evidence is consistent with an established, apparently legitimate local business website, although the connection between the online presence and a verified real-world operator has not been independently established.

Infrastructure Integrity

The site resolves to four likely origin addresses, with no separately identified edge IPs and no CDN detected in the observed configuration. This provides less edge-layer shielding than a CDN-backed deployment, but the hosting posture itself does not establish malicious intent.

EVIDENCE

- Infrastructure resolution identified 4 unique IP addresses.
- Edge IP count: 0; likely origin IP count: 4.
- CDN detected: false; origin candidates present: true.

Closing Assessment

Prospective users may engage for ordinary restaurant purposes, subject to normal independent checks of merchant identity, transaction terms, and payment protections before submitting credentials or making payments.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbusIPDB: 24 reports on hosting IP 198.185.159.145 (Squarespace, Inc., Content Delivery Network), 28% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 10greekplates.com.au.

- The request stayed on 10greekplates.com.au. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Domain Directors Pty Ltd trading as Instra. [CLEAR](#)

- DNS for this domain is served by partnerconsole.net, across 3 name servers. NOTED
- The earliest public archive of this site is from 2015-02-23. CLEAR
- It is hosted on SQUARESPACE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 10greekplates.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
