

Is 1111365.org a scam? TrustSniffer's high-risk assessment: 0/100

1111365.org

Verdict

0

OUT OF 100

CRITICAL RISK

1111365.org shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Short promotional landing page for an online casino brand (K8 凯发). Contains marketing taglines claiming top-tier status and credibility; encourages user deposits/wagers but offers no verifiable licensing or contact information on the captured content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 1111365.org served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2022.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website at 1111365.org is a short promotional landing page for the K8 凯发 online casino brand, presenting itself as a leading Asian online entertainment platform and encouraging visitors toward gambling deposits and wagering through claims of official operation, credibility, and reliable handling of large transactions.

Scam/Impersonation Risk

The site presents a **critical interaction risk**. The captured homepage uses strong credibility claims—“Asia’s top online entertainment platform,” “official direct-operated brand,” and “reputation assurance”—without supporting evidence, while its operating model requires deposits before service and monetizes through wagering. This combination creates clear claim-to-evidence dissonance and an opaque value flow. Independent security telemetry also recorded malicious detections and confirmed blacklist status from multiple external sources; the absence of a Google Safe Browsing hit does not offset those corroborated warnings. No conflicting legal-entity names or explicit brand impersonation were observed, but the external blacklist contradiction is sufficient to make sensitive interaction inappropriate.

EVIDENCE

- Homepage: the title and visible copy identify “K8凯发·天生赢家” and promote an Asian top-tier online entertainment platform with official-operation and credibility claims.
- Homepage: the captured content supports a deposit-and-wager gambling model and provides no substantiation for the promotional claims.
- External reputation telemetry: 18 malicious detections, 1 suspicious detection, and blacklist status recorded across evaluated sources.
- Domain provenance telemetry: current registration record created 2026-07-15, age 0.09 years, expiring 2027-07-15; archive record contains 4 snapshots from 2022-04-25 through 2026-03-01, spanning 5 years.

Regulatory Verification Notes

The available page content does not disclose a verifiable gambling license, licensing authority, license number, corporate operator, or reliable contact information. This is a material regulatory-transparency gap for a deposit-taking gambling service, although the absence of a disclosed license is treated as a verification issue rather than independent proof of fraud. The real-world operator identity remains unverified, and the available material does not independently connect the K8 brand to a legal entity. No matching third-party broker profile was identified, which provides no positive regulatory confirmation.

EVIDENCE

- Homepage: no license authority, license number, operator identity, or verifiable contact information appears in the captured content.
- Homepage metadata: no structured business identity information, canonical designation, or descriptive metadata was detected.
- Transport security: TLS uses DV validation, is issued by WE1, and is valid to 2026-10-13.
- Registration telemetry: registrar recorded as Spaceship, Inc.

What to Verify Next

Before any engagement, the operator should be matched to a relevant gambling regulator’s public register using an independently obtained legal name and license number, not information supplied solely by the landing page. Contact channels should be confirmed through an independent offline or previously trusted source, and any payment method should be assessed for chargeback, withdrawal, and dispute protections before funds are provided. Credentials should not be reused, and no account or payment interaction should proceed unless the operator and authorization are independently confirmed.

EVIDENCE

- Relevant regulator: no licensing record or license identifier is supplied by the captured site content for independent registry matching.
- Captured landing page: the service is presented through promotional claims rather than documented legal, compliance, or dispute-resolution information.
- Payment due diligence: the stated business model requires deposits before wagering activity, making withdrawal and dispute terms material verification points.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The evidence does not establish a trustworthy connection between the promoted brand and a verified real-world operator, while the external security contradiction and unsupported deposit-driven claims materially undermine confidence.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure, and all observed addresses are CDN edge servers rather than an independently observable origin. This provides a mitigating layer against direct infrastructure exposure but does not establish legitimacy or reduce the significance of the external reputation findings.

EVIDENCE

- Hosting infrastructure: served from AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- Observed edge addresses: 104.21.56.229, 172.67.137.171, 2606:4700:3031::6815:38e5, and 2606:4700:3031::ac43:89ab.
- Origin posture: 4 edge IPs observed and 0 likely origin IPs identified.
- TLS certificate: issuer WE1, DV validation, valid through 2026-10-13.

Closing Assessment

Prospective users and institutions should refrain from account creation, credential submission, deposits, wagering, and other sensitive interactions unless independent identity, authorization, and payment-protection checks produce clear, corroborated evidence of legitimacy.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 1111365.org.

- The request stayed on 1111365.org. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Spaceship, Inc.. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-07-15. [NOTED](#)
- The earliest public archive of this site is from 2022-04-25. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 1111365.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
