

Is 11775357.com a scam? TrustSniffer's high-risk assessment: 0/100

11775357.com

Verdict

0

OUT OF 100

CRITICAL RISK

11775357.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Chinese-language gambling/casino sportsbook landing page promoting sign-up bonuses, deposit incentives and live casino links; focused on conversion with limited evidence of licensing or verifiable credentials.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

The page as captured

<https://11775357.com/>

What 11775357.com served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

A Chinese-language gambling and sports-betting landing site, 11775357.com presents casino games, sportsbook access, promotional bonuses, and registration-driven calls to action designed to convert visitors into depositing users.

Scam/Impersonation Risk

Confirmed external threat indicators create a critical interaction risk. The site is blacklisted across external sources, with malicious detections from multiple security providers. The homepage also exhibits a deposit-before-service model: it promotes immediate registration, a 100% new-user bonus up to RMB 18,888, live casino, electronic games, sports betting, lottery and board games, esports betting, and fishing entertainment. It further claims that promoted operators are a “13-year-old brand,” an “official sponsor” or “designated betting point” for the 2026 World Cup, and connected directly to a physical casino, without corresponding evidence on the page. These claims, the deposit incentives, and the limited supporting credentials are materially inconsistent with a trustworthy sensitive-interaction posture. No separate conflicting legal-entity names or confirmed brand-

impersonation finding were observed. The archive chronology also predates the current registration record, creating a provenance discontinuity that should not be treated as proof of repurposing but does weaken continuity confidence.

EVIDENCE

- External threat screening recorded 19 malicious detections, a confirmed blacklist status, and a kill-switch condition; the homepage was the assessed target.
- The homepage contains one registration/deposit call-to-action form and conversion-focused sign-up messaging.
- The domain registration record shows creation on 2026-04-04 and an age of 0.37 years; registrar: Spaceship, Inc.
- Archive records contain 3 snapshots, spanning 2021-11-23 to 2024-05-25, with 4 years tracked.

Regulatory Verification Notes

The site's footer links to "About Us," privacy, terms, frequently asked questions, customer service, and agent cooperation pages, but the supplied content does not provide a verifiable licensing authority, license number, or clearly identified operating entity. This is a significant regulatory and governance transparency gap for a gambling service that solicits deposits. Ownership and governance remain opaque, while the available identity evidence does not independently connect the site to a verified real-world operator. The absence of a broker-dataset match is only contextual and does not establish licensing or legitimacy. Transport security is present, but domain-validation TLS authenticates control of the domain rather than the legal operator.

EVIDENCE

- The homepage footer displays legal and support-page links but no license authority or license number in the captured content.
- Hosting telemetry records AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- The site's TLS certificate is issued by YE1, uses DV validation, and is valid to 2026-10-29T16:22:03+00:00.

What to Verify Next

Before any account creation, credential submission, deposit, or other financial interaction, an independent check should confirm the operator's legal entity and gambling authorization directly with the relevant jurisdictional regulator. Any advertised sponsorship, physical-casino connection, withdrawal promise, or customer-support channel should be confirmed through an independently sourced route rather than through links or contact details supplied by the site.

EVIDENCE

- The homepage makes sponsorship, casino-connection, brand-age, bonus, and payout-related claims without supporting credentials in the captured page.
- The site's registration/deposit form creates a direct path from promotional content to funded-account activity.
- The available identity-verification status is unverified, so on-site branding cannot be treated as proof of the operator's real-world identity.

Summary Verdict

The overall posture is critical, with the available evidence supporting a sensitive-interaction risk classification rather than a legitimate basis for account or payment activity. The convergence of confirmed external threat detections, deposit-oriented gambling content, unsupported credibility claims, and unresolved operator identity materially outweighs the limited technical indicators of normal web operation.

Infrastructure Integrity

The site is fronted by Cloudflare CDN/WAF infrastructure, and all observed addresses are CDN edge addresses; no origin candidate was observed. This reduces direct exposure of the underlying host and may help absorb routine network abuse, but it is only a mitigating infrastructure characteristic and does not establish site legitimacy.

Closing Assessment

The appropriate enterprise posture is to restrict interaction to passive observation and block login, credential submission, deposits, and other financial actions unless independent regulatory and operator verification is completed through trusted external channels.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 11775357.com.

- The request stayed on 11775357.com. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-04. NOTED
- The earliest public archive of this site is from 2021-11-23. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 11775357.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
