## Full analysis

### Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as 121 Visa Services Ltd, a commercial travel and visa agency offering paid assistance with Saudi, Algerian, Chinese, and Russian visa applications, document legalisation, translation, and related travel-document services. Its apparent business model is to charge service fees for handling applications and documentation in addition to any official government or embassy charges.

### Scam/Impersonation Risk

No conflicting legal-entity names or explicit brand-impersonation indicators were observed across the available site content. However, the site is subject to a confirmed blacklist finding, with multiple external malicious detections, including detections associated with Fortinet and Sophos. This conflict between a professional-looking agency presentation and serious external threat intelligence creates a material risk for sensitive interaction, particularly where personal documents, identity information, or payments may be involved. The site's long-running historical presence does not neutralise the current reputation findings.

#### EVIDENCE

- The homepage and service pages describe visa processing, document attestation, translation, and assistance with Saudi family, business, and work visas.
- External reputation assessment recorded 6 malicious detections and a confirmed blacklist status.
- Historical records show 222 archive snapshots from 2016-05-22 through 2024-06-15, covering 9 tracked years.
- Domain continuity evidence records registration for approximately 10.24 years.

### Regulatory Verification Notes

The site identifies itself as 121 Visa Services Ltd and provides office addresses, telephone contact, testimonials, and links to government and travel resources. Those on-site claims are not independently verified by the available evidence. The pages reviewed do not provide a clearly verifiable licensing authority or licence number for the visa-agent activity, leaving a material regulatory-disclosure gap. The site should therefore be treated as an apparently commercial intermediary rather than as a government or embassy service. The available broker-reputation context produced no match, but that is only a limited contextual signal and does not establish licensing or regulatory standing.

#### EVIDENCE

- The homepage states that 121 Visa Services Ltd is a “Specialist Visa Agent” and claims accredited-agent status without displaying a licensing authority or licence number in the supplied content.
- The site includes About, Contact, visa-service, and document-attestation pages, but the available page content does not establish an independently verified operator identity.
- Hosting is identified as AS52148, ENIXLTD - Enix Ltd, GB.
- The site's TLS certificate is DV-validated, issued by YR1, and valid until 2026-11-12.

### What to Verify Next

Before any sensitive engagement, an independent check should confirm whether the business is registered and authorised for the specific visa-agent services advertised, using the relevant corporate and governmental registers rather than links supplied by the site. The stated office details and telephone channel should be confirmed through an independent source, and any invoice should clearly separate the agency's service fee from official visa or embassy charges. No passport, identity document, payment data, or account credentials should be submitted until those checks are complete.

#### EVIDENCE

- The homepage presents a contact or service-inquiry form, with no login form or hidden sensitive form detected.
- Behavioural testing recorded 2 suspicious inline scripts and classified the network behaviour as suspicious, despite finding no external password form.
- The homepage lacks a supplied meta description, structured-data markup, and canonical declaration.
- The site links externally to government, travel, Facebook, Google, and LinkedIn destinations.

Summary Verdict

The website has a **critical sensitive-interaction risk posture**. Its substantive agency presentation and established historical continuity are outweighed by confirmed external threat detections and blacklist status. The real-world operator remains unverified, so the site's claimed legitimacy cannot be treated as proven.

Infrastructure Integrity

The site is hosted through Enix Ltd in the United Kingdom, and the supplied technical evidence confirms valid DV TLS encryption. No trusted CDN or WAF protection is recorded; the certificate and hosting arrangement provide transport and infrastructure facts but do not establish the legitimacy of the operator or offset the external reputation risk.

EVIDENCE

- The hosting record identifies Enix Ltd, GB, on AS52148.
- The transport certificate is issued by YR1 at DV validation level and expires on 2026-11-12.

Closing Assessment

The appropriate posture is restricted, non-sensitive observation while independent corporate, regulatory, contact, and payment checks are completed; sensitive submissions and financial transactions should remain deferred unless those checks produce satisfactory results.

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about 121visaservice.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
