

Is 13tv.co.il legit? TrustSniffer's high-trust assessment: 95/100

13tv.co.il

Verdict

95

OUT OF 100

HIGH TRUST

13tv.co.il appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 70%.

WHAT THIS SITE APPEARS TO BE

Hebrew-language homepage for Israel's Reshet 13, combining breaking news, current-affairs reporting, television schedules, live broadcasting, VOD programs, entertainment, lifestyle sections, and sponsored recommendation widgets. No login, payment, credential collection, investment solicitation, or brand-impersonation behavior is evident in the supplied content.

Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is the Hebrew-language digital portal of Israel's Reshet 13, presenting breaking news, current-affairs reporting, live television, schedules, video-on-demand programming, entertainment, lifestyle content, and sponsored recommendations through an advertising-supported media model.

Scam/Impersonation Risk

No identity contradictions, impersonation, phishing, or confirmed malicious activity were observed. The domain has a long operating history with dense archival continuity, while the homepage contains substantial original editorial and television content consistent with its presented identity. Although automated interaction detected a hidden form, the page displayed no login or sensitive-data form, no external password submission, no cloaking, and no malicious wallet or clipboard behavior; the behavioral interpretation classified the network activity as benign.

- Domain provenance records show registration in 2019 (~7.37 years old), with ownership attributed to Kobi More-Zedek and registration through Domain The Net Technologies Ltd.
- Historical records contain 5,000 archive snapshots spanning 2019–2022 (4 years tracked), with no suspicious repurposing or semantic drift identified.
- The homepage presents extensive Reshet 13-branded news, television, live-broadcast, VOD, entertainment, travel, food, and cultural material.
- Reputation checks found 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, no reported abuse, and an established global traffic footprint at rank 48,058.

Regulatory Verification Notes

This is presented as a commercial news and television publisher rather than a financial, investment, or other regulated-service platform. The supplied homepage does not make licensing claims or solicit investments, payments, or financial transactions, so the absence of a financial-services authorization is not material to its stated business model. The available registration record names an owner and a corporate registrar; no conflicting legal-entity names were identified. No matching broker-reputation entry was found, which is unsurprising for a media publisher and carries no adverse implication.

- The homepage identifies the service as “Reshet 13” and categorizes its offering around news, television programming, live broadcasting, and digital media.
- The homepage shows no investment solicitation, cryptocurrency offering, payment request, or financial-product claim.

- The domain registration is maintained through Domain The Net Technologies Ltd and expires on 2027-03-03.
- The site's transport encryption uses a YR2-issued domain-validated TLS certificate, valid to 2026-08-29.

What to Verify Next

Enterprise onboarding should confirm that the precise domain is used in bookmarks and communications, review the privacy and consent terms governing personalized advertising, partner data sharing, and precise-geolocation requests, and validate official contact channels independently before initiating any unusual commercial or partnership correspondence.

- The homepage's observed browser behavior includes a cookie-consent prompt, personalized advertising, cross-partner data sharing, and a precise-geolocation request.
- The homepage includes sponsored recommendation widgets and uses the Taboola advertising technology.
- The captured homepage exposes contact, program-registration, careers, and partner-navigation areas that can support channel verification.

Summary Verdict

The website is a legitimate, established, and trustworthy media property. Its coherent editorial identity, sustained provenance, clean external reputation, and benign observed behavior converge strongly, with no contradictory risk signals. Normal interaction, including account login and standard use where offered, is appropriate.

Infrastructure Integrity

The website is protected by Akamai's CDN/WAF, and all six observed addresses were edge servers rather than exposed origin infrastructure. It is served from AS20940 (Akamai International B.V.); this mainstream protective architecture mitigates direct origin exposure but is treated as a security control rather than independent proof of legitimacy.

Closing Assessment

Prospective users may engage with the website normally, while applying routine privacy preferences and ordinary domain-validation practices.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 13tv.co.il.

- The request stayed on 13tv.co.il. It was not redirected to another domain. CLEAR
- Registration is published under Domain The Net Technologies Ltd. CLEAR
- DNS for this domain is served by akam.net, across 6 name servers. NOTED
- The registration is paid up to 2027-03-03. NOTED
- The earliest public archive of this site is from 2019-03-21. CLEAR
- It is hosted on AKAMAI-ASN1, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 13tv.co.il at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
