

Is 1ship.vn a scam? TrustSniffer's high-risk assessment: 5/100

1ship.vn

Verdict

5

OUT OF 100

CRITICAL RISK

1ship.vn shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Vietnamese phpBB forum index for import/export and international trade topics. Contains category listings, login/register form, and basic forum statistics. No evident financial product, investment solicitations, or brand impersonation.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2014.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is a Vietnamese phpBB community forum focused on import/export, international purchasing and sales, logistics, e-commerce, and related business discussions. Its homepage presents discussion categories, search, FAQ, registration, and login functions, indicating an informational community model rather than a financial-product or investment service.

Scam/Impersonation Risk

The homepage itself presents no evident brand impersonation, phishing content, financial solicitation, or other page-level fraud indicators. However, external reputation assessment recorded a confirmed blacklist hit and multiple malicious detections, which are decisive contradictions for sensitive interaction. The ordinary forum presentation and sustained historical presence do not neutralize those findings. The operator's real-world identity is also not independently verified, so the site should not be treated as an authenticated business channel.

EVIDENCE

- External reputation evaluation recorded 4 malicious and 1 suspicious detections among 5 evaluated results; the domain was also recorded on an external blacklist.
- Domain registration continuity indicates an age of 12.08 years.
- Web-archive records contain 79 snapshots from 2014-07-19 through 2026-06-06, spanning 13 years.

Regulatory Verification Notes

The reviewed content describes a community forum and does not present a financial service, investment offer, or licensing claim. No license authority or registration number is disclosed in the available site material; for this apparent business-discussion use case, that is a transparency and identity-verification matter rather than evidence of a regulated financial activity. The site's operator identity and governance arrangements remain unverified, and any commercial relationship initiated through forum content would require separate validation.

EVIDENCE

- The homepage identifies the service as an import/export and international-trade discussion forum and contains no stated financial-product offering.
- No license claim, licensing authority, or license number appears in the reviewed site content.
- The site is served from AS135905, VNPT-AS-VN – Vietnam Posts and Telecommunications Group, VN.
- The TLS certificate was issued by YR1 at DV validation level and is valid to 2026-10-04.

What to Verify Next

Before relying on any commercial introduction, advice, or transaction associated with the forum, independently confirm the counterparty's legal name, registration status, and contact details through authoritative corporate or trade records. Any claimed regulated service should be checked directly against the relevant regulator's register, and official contact channels should be confirmed through an independent, offline route. Credentials and payment details should not be submitted unless the specific interaction has been separately authenticated and its security controls are understood.

EVIDENCE

- The site's stated purpose is informational community discussion, so the identity of individual counterparties—not merely the forum's topic categories—requires independent validation.
- The available material does not establish an independently verified operator identity.
- No licensing or registration details are presented for validation where a user may interpret a commercial activity as regulated.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. The site may function as an ordinary discussion forum, but the confirmed external reputation contradiction prevents the available evidence from supporting trust for account access, credential use, financial activity, or reliance on the site as an authenticated business channel.

Infrastructure Integrity

The website is protected by a CDN/WAF layer, and the observed address is an edge address rather than an independently observable origin address. This provides a useful exposure-mitigation control, but it does not establish legitimacy and cannot offset the external reputation findings.

Closing Assessment

The site should be limited to passive reading unless each proposed interaction, counterparty, and communication channel is independently authenticated; credential submission and financial engagement should not proceed on the basis of the website alone.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 1ship.vn.

- The request stayed on 1ship.vn. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2014-07-19. CLEAR
- It is hosted on VNPT-AS-VN, from a server in VN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 1ship.vn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
