

Is 28365.bet a scam? TrustSniffer's high-risk assessment: 0/100

28365.bet

Verdict

0

OUT OF 100

CRITICAL RISK

28365.bet shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

Minimal parked-domain landing page stating the domain may be for sale and linking to Terms of Service and Privacy Policy.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 28365.bet served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

28365.bet is a minimal parked-domain landing page that tells visitors the domain may be for sale and provides links to Terms of Service and Privacy Policy. It does not present an operating company, commercial service, customer workflow, or substantive business offering.

Scam/Impersonation Risk

No brand impersonation or conflicting legal identity was observed in the supplied page evidence. However, the domain is **blacklisted by two external sources**, and external reputation checks recorded multiple malicious and suspicious detections, including detections from established security providers. These findings materially outweigh the otherwise limited and benign behavior of the parked page. The homepage contains only a short sale notice and does not itself demonstrate an active service, but that limited presentation does not resolve the external threat indicators.

EVIDENCE

- External reputation assessment recorded 9 malicious and 2 suspicious detections, with blacklist status confirmed by two sources.
- The homepage is identified as a parked “for sale” domain with approximately 144 characters of visible text and no substantive service content.
- Web-archive records show 8 snapshots, first seen 2018-08-03 and last seen 2021-11-25, spanning 4 tracked years.

Regulatory Verification Notes

The site provides Terms of Service and Privacy Policy links but does not identify an independently verified operating entity, license, registration number, or regulatory authority. Because the page is only a domain-sale landing page, the absence of a licensing claim is a transparency and verification gap rather than, by itself, evidence of a scam. The apparent operator identity remains unverified, and the available disclosure is insufficient to support regulated or financially sensitive engagement.

EVIDENCE

- The homepage links only to Terms of Service and Privacy Policy and states that the domain may be for sale.
- WHOIS records identify CommuniGal Communication Ltd. as registrar and record creation on 2025-09-03, with an age of approximately 0.95 years.
- The page contains no license number, regulatory authority, corporate registration detail, or operating-company disclosure.

What to Verify Next

Before any sensitive interaction, an independent registry check should establish whether a real operator is associated with the domain and whether any claimed activity would require licensing. Official contact channels and ownership claims should be confirmed through an independently sourced, offline route rather than relying solely on links presented by the site. Until those checks produce satisfactory results, login, credential submission, and financial activity should not be undertaken.

EVIDENCE

- The homepage contains no login form, password field, payment form, or other sensitive-input workflow.
- Behavioral testing recorded 2 successful runs, 0 external XHR or fetch requests, 0 wallet-connection runs, and no hidden forms.
- The Terms of Service and Privacy Policy are the only substantive internal links identified on the landing page.

Summary Verdict

The available evidence supports a **critical-trust posture** for sensitive interaction. The domain’s apparent parked status does not offset the confirmed external threat detections, and the real-world operator identity is not independently verified. Read-only observation is the only proportionate use supported by the current evidence.

Infrastructure Integrity

The site resolves directly to one likely origin address rather than a CDN edge, with no CDN or WAF detected. Hosting is provided by TRELLIAN-AS-AP—Trellian Pty. Limited, Australia, on AS133618; this infrastructure is identifiable but provides no material protective mitigation. The transport layer uses a DV TLS certificate issued by YR2, which confirms encryption but does not establish legitimacy.

EVIDENCE

- Hosted on AS133618, TRELLIAN-AS-AP—Trellian Pty. Limited, AU; one resolved IP and one likely origin IP were identified, with 0 edge IPs.
- No trusted CDN was detected.
- TLS certificate issuer: YR2; validation level: DV; valid to 2026-10-05.

Closing Assessment

Prospective users should refrain from credential, account, or financial interaction unless independent ownership, contact, and regulatory checks produce clear, corroborated results.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct_threat

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 28365.bet.

- The request stayed on 28365.bet. It was not redirected to another domain. CLEAR
- Registration is published under CommuniGal Communication Ltd.. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-03. NOTED
- The earliest public archive of this site is from 2018-08-03. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 28365.bet at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
