

Is 2garantibva.com a scam? TrustSniffer's high-risk assessment: 0/100

2garantibva.com

Verdict

0

OUT OF 100

CRITICAL RISK

2garantibva.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

A short under-construction/coming-soon landing page (2garantibva.com) with no links, forms, or visible business details.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

Error code 522

What 2garantibva.com served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Google, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a single-page “Coming Soon” and under-construction landing page for 2garantibva.com. It presents only the statements “Coming Soon,” “We’re under construction,” and a request to check back later, with no visible service description, commercial offering, or transaction flow.

Scam/Impersonation Risk

A confirmed blacklist signal and multiple external threat detections create a material security concern despite the page’s currently minimal presentation. The homepage itself contains no login form, credential request, payment mechanism, or visible impersonation content, so the available evidence does not establish a specific phishing or brand-impersonation scenario; however, the external detections remain a direct contradiction to treating the domain as safe for sensitive interaction. The site should therefore be regarded as unsuitable for credential submission, financial activity, or other sensitive use unless its status is independently resolved.

EVIDENCE

- External reputation telemetry recorded 9 malicious and 1 suspicious determinations among 15 evaluated results, with a confirmed blacklist status.
- The homepage contains only 91 characters of visible text and no forms, links, or sensitive-input elements.
- Domain registration records show registration in 2024, with an age of approximately 2.34 years.
- Web-archive records contain 1 snapshot spanning 2024–2024, representing 1 year tracked.

Regulatory Verification Notes

The landing page provides no identifiable operator, legal-entity information, licensing statement, registration number, terms, privacy notice, or regulatory disclosure. This is a transparency and verification gap rather than independent proof of fraud, but it leaves the website's intended business activity and accountability framework unclear. Identity verification remains unverified, and no third-party broker match was identified. The domain is registered through Squarespace Domains II LLC, while its transport security uses a domain-validated certificate; these are infrastructure and administrative facts, not evidence that a business is licensed or that the operator has been independently established.

EVIDENCE

- The homepage is titled "Coming Soon" and contains no visible legal, corporate, licensing, or regulatory disclosure.
- The site is registered through Squarespace Domains II LLC; registration date: 2024-04-17T11:55:07Z.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 at DV validation level, valid to 2026-10-20T14:02:36+00:00.

What to Verify Next

Before any future engagement, an independent source should confirm the identity of the operator, the legitimacy of any business model that later appears, and any claimed authorization with the relevant jurisdictional registry. Contact details and official support channels should be confirmed through an independently obtained route rather than relying solely on information eventually published on the domain. Until those checks succeed and the external threat status is resolved, sensitive interaction should not proceed.

EVIDENCE

- The homepage currently provides no contact route through links, forms, or other interactive elements.
- Behavioral testing recorded 2 successful runs, with 7 external XHR requests and 1 external POST request; no wallet connection, credential form, or hidden form was observed.
- The site is classified as a landing/under-construction page and is marked as parked for sale.

Summary Verdict

The overall posture is **critical risk**. The combination of confirmed external threat detections, unresolved provenance, and the absence of an identifiable operating purpose does not support trust for sensitive use. The website's benign-looking placeholder content does not offset the external security contradiction.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present and is a mitigating control against direct exposure of the hosting environment, but it does not validate the website or neutralize the external threat findings. All observed addresses were Cloudflare edge servers, and no origin-server candidate was identified during the analysis.

EVIDENCE

- Observed Cloudflare edge IPs: 104.21.70.157, 172.67.168.104, 2606:4700:3031::6815:469d, and 2606:4700:3034::ac43:a868.
- All four observed addresses resolve through AS13335; hosting provider: CLOUDFLARENET - Cloudflare, Inc., US.

Closing Assessment

Enterprise users should suspend credential, payment, account, and other sensitive interactions with the domain pending independent operator verification and resolution of its external threat status.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100

Identity verification confidence	25%
----------------------------------	-----

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 2garantibva.com.

- The request stayed on 2garantibva.com. It was not redirected to another domain. CLEAR
- Registration is published under Squarespace Domains II LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-17. NOTED
- The earliest public archive of this site is from 2024-04-20. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 2garantibva.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
