Full analysis

Overview

This Russian-language website is a personal contemporary-art portfolio presenting street-influenced works in curated series, with biographical and exhibition-oriented material, social-channel links, and an apparent purpose of showcasing artwork and supporting possible commission or sales inquiries.

Scam/Impersonation Risk

The site presents as a coherent artist portfolio rather than an overt phishing or impersonation page, and page-level review found no login form, hidden form, sensitive form, or brand-impersonation indicator. However, the domain has a confirmed blacklist status supported by multiple external reputation sources, including six malicious and two suspicious detections in the evaluated results. That external contradiction is decisive for sensitive-use risk even though the visible content is benign and the domain has maintained a substantial historical presence.

EVIDENCE

- External reputation assessment recorded 6 malicious and 2 suspicious detections among 8 evaluated results, with a confirmed blacklist status.
- The homepage is identified as an artist portfolio/gallery and contains artwork descriptions, while behavioral review recorded no login form, hidden form, wallet activity, or clipboard-hijacking behavior.
- Domain registration: 2010-11-29; approximately 15.73 years old.
- Web archive: 103 snapshots spanning 2011–2026, covering 16 tracked years.

Regulatory Verification Notes

The About, Terms and Conditions, Privacy Policy, and Contact pages provide a basic website structure, while the About material identifies the artist as Stepan Krasnov. The site does not present a financial, investment, or other regulated-service offering, and no licence claim or licence number is stated. The apparent identity is therefore plausible in the context of an art portfolio, but it is not independently verified; any commercial engagement would require separate confirmation of the contracting party and applicable consumer or seller obligations. The available TLS certificate is a transport-security control only and does not resolve the external reputation concern.

EVIDENCE

- The About page names Stepan Krasnov and frames the site around contemporary art and street-art influences.
- The site exposes Terms and Conditions, Privacy Policy, and Contact pages through its internal navigation.
- TLS certificate: issuer YR1, validation level DV, valid to 2026-09-20T17:44:29+00:00.

What to Verify Next

Before any commission, purchase, or other non-reversible engagement, independently authenticate the artist and the contracting party through an established channel not obtained solely from the website. Confirm the seller’s legal identity, invoice details, delivery and refund terms, and payment-protection options before transferring funds. Given the confirmed external risk indicators, credentials and financial information should not be submitted unless the reputation issue has been independently resolved and the transaction has appropriate safeguards.

EVIDENCE

- The Contact page is available for commercial or other inquiries.
- Captured site behavior recorded no login form or sensitive-data form.
- The homepage links to Facebook and Instagram, providing potential channels for independent identity corroboration.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The website may represent a genuine personal portfolio, but its apparently coherent content and likely identity linkage do not overcome the confirmed

external reputation contradiction. Identity should be treated as likely rather than verified.

Infrastructure Integrity

The site resolves to hosting operated by AS-REGRU, the REG.RU registrar and hosting organization, in Russia, with no detected CDN or WAF and two likely origin addresses. Direct hosting provides limited infrastructure-layer mitigation, and the valid DV certificate confirms encrypted transport but not operator legitimacy.

EVIDENCE

- Hosted on AS197695 (AS-REGRU - _Domain names registrar REG.RU_, Ltd, RU), server address 31.31.197.98, country RU.
- Infrastructure resolution identified 2 unique IP addresses, 0 edge IP addresses, and 2 likely origin IP addresses.
- No CDN vendor or WAF was detected.

Closing Assessment

Restrict activity to passive viewing unless independent checks satisfactorily resolve the external reputation issue; credentials and financial transactions should not be used in the interim.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 **Governance Risk**

- The public registration record for this domain is incomplete.
  Registration and ownership `rule:KF_WHOIS_INCOMPLETE`

02 **Sensitive Interaction Risk**

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
  Analysis engine `signal:direct_threat`
- Most of what the page loaded came from other domains rather than from this one.
  Behaviour in a sandbox `rule:BEHAV_EXTERNAL_RATIO_HIGH`
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
  External reputation `rule:EXT_BLACKLIST_CRITICAL`

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 310.su at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
