

Is 313456.xyz a scam? TrustSniffer's high-risk assessment: 0/100

313456.xyz

Verdict

0

OUT OF 100

CRITICAL RISK

313456.xyz shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-18 by automated analysis. Classification confidence 70%.

What this site appears to be

A minimal Chinese-language login page ('吊丝社区') with fields for account login, links for forgot password and registration, and no explanatory content or trust signals.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

吊丝社区

What 313456.xyz served when TrustSniffer captured it on 2026-08-18. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website at 313456.xyz presents a minimal Chinese-language member login portal titled “吊丝社区,” offering account login, password recovery, and registration without explaining the service, operator, commercial purpose, or value provided to visitors.

Scam/Impersonation Risk

The site presents a **critical sensitive-interaction risk**. External security intelligence recorded 14 malicious detections and one suspicious detection, with Kaspersky and Sophos among the flagged vendors, and the domain is listed by external blacklist sources. This is materially reinforced by the page itself: it contains a password-bearing login form, provides almost no context beyond authentication, and behavioral inspection identified a hidden form plus external requests and posts that were not allowlisted. No distinct legal-entity identity contradiction or brand impersonation was observed; however, the available evidence is sufficient to treat login, credential submission, and other sensitive interaction as unsafe.

EVIDENCE

- The homepage/login page titled “吊丝社区” contains one login form with account-authentication fields, password recovery, and registration links, but only 51 characters of visible text and no service explanation.
- Behavioral inspection of the login page detected one hidden form; it also recorded 10 external XHR requests and 8 external posts, all categorized as non-whitelisted.
- External reputation telemetry recorded 14 malicious and 1 suspicious detections, with Kaspersky and Sophos flagged; an external blacklist hit was present.

Regulatory Verification Notes

The reviewed page does not identify a corporate operator, regulated entity, license, registration number, or governing terms. Identity verification therefore remains unverified, and the apparent business model cannot be established from the visible content. These are material disclosure gaps for any service requesting account credentials. A valid transport certificate and recognizable hosting provider establish technical encryption and delivery infrastructure only; they do not establish licensing, ownership, or regulatory standing. No match was identified in the reviewed broker-reputation dataset, but that absence is contextual only and is not a licensing determination.

EVIDENCE

- The homepage/login page supplies no visible company name, business description, license authority, license number, or regulatory disclosure.
- The domain registration record lists Spaceship, Inc. as registrar and a creation date of 2026-01-12; the archive-reconciled domain age is 1.9082819986310746 years.
- The archive contains 3 snapshots spanning 2024–2026, with 3 years tracked.
- The site's TLS certificate is issued by YE2, uses DV validation, and is valid to 2026-10-21T13:44:06+00:00.

What to Verify Next

Before any interaction involving credentials, establish the operator through an independently obtained corporate or institutional source rather than relying on the portal itself. Confirm any claimed service authorization directly with the relevant licensing or company registry, and validate the official support and contact channels through an offline or independently sourced route. If credentials may already have been entered, assess password reuse exposure and review associated accounts for unauthorized activity.

EVIDENCE

- The homepage/login page exposes a sensitive authentication form while providing no identifiable service or operator context.
- The reviewed content contains no license authority or registration number to validate.
- The site's visible internal link set contains no external identity, policy, or authority references.

Summary Verdict

The available evidence supports a **critical and clearly cautionary trust posture**. The site's unexplained login-only presentation, unverified identity, concealed form behavior, and corroborated malicious and blacklist signals converge on material risk for sensitive interaction. Technical availability and encrypted transport do not offset those substantive concerns.

Infrastructure Integrity

The site is delivered through Cloudflare's CDN/WAF infrastructure, with observed edge addresses hosted on AS13335, Cloudflare, Inc., US; the origin server was not observable. This infrastructure can mitigate direct exposure of the origin and absorb common network threats, but it is a protective delivery measure rather than evidence that the website or its operator is legitimate.

Closing Assessment

The portal should not be used for login, credential submission, financial activity, or other sensitive transactions unless independent operator identity, authorization, and technical safety have first been established and any potentially exposed credentials have been secured.

Written analysis generated 2026-08-18 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, page content, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- The page presents a sign-in form, and the operator behind it could not be independently verified.
Page content rule:PAGE_TYPE_LOGIN_UNVERIFIED

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- The page asks visitors for sensitive information.
Page content rule:PAGE_FORM_SENSITIVE
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The page contained a form a visitor cannot see.
Behaviour in a sandbox rule:BEHAV_HIDDEN_FORMS
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 313456.xyz.

- The request stayed on 313456.xyz. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-12. NOTED
- The earliest public archive of this site is from 2024-09-19. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 313456.xyz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
