

Is 33178.cc a scam? TrustSniffer's high-risk assessment: 0/100

33178.cc

Verdict

0

OUT OF 100

CRITICAL RISK

33178.cc shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Minimal parked-domain page indicating the domain may be for sale via Dynadot; no service, login, or transactional flows present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 33178.cc served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

33178.cc is a minimal parked-domain page presenting general information links and stating that the domain may be for sale through Dynadot auctions; it does not present an operating product, service, account area, or transactional business model.

Scam/Impersonation Risk

The site presents no active phishing form, login flow, financial service, or brand-impersonation content, so the page itself offers limited interaction surface. Nevertheless, the domain is subject to a **confirmed blacklist** supported by multiple external threat detections, including malicious classifications from 15 evaluated detections and flags from two security vendors. This external evidence is a material contradiction to the otherwise neutral appearance of the parked page and supports a critical-risk posture for sensitive interaction. The domain's real-world operator identity also remains unverified; this should not be treated as proof of impersonation, but it prevents the page from establishing a trustworthy connection to a legitimate entity.

EVIDENCE

- The homepage contains approximately 203 characters, states that the domain may be for sale, and refers to Dynadot auctions; no login or sensitive form is present.
- External reputation telemetry records 15 malicious detections, two tier-one vendor flags, and confirmed blacklist status from two blacklist sources.
- Domain registration telemetry records registration on 2025-08-13 and an age of 1.02 years.
- Archive telemetry records 138 snapshots spanning 2021-11-23 through 2025-11-12, with 5 years tracked.

Regulatory Verification Notes

The captured site is a domain-sale placeholder rather than an operating financial or other regulated service, so there is no substantive business activity against which licensing can be assessed. The homepage provides links to Terms of Service and Privacy Policy, but does not disclose a named operating company, regulated activity, license, or registration number. This is a transparency and verification gap—not, by itself, evidence of fraud—but the absence of an independently verified operator is significant when considered alongside the external threat detections. The valid transport certificate and identifiable hosting are technical properties only and do not establish legal legitimacy.

EVIDENCE

- The homepage's stated business model is domain sale or auction activity, with no product, service, or regulated offering described.
- The homepage exposes Terms of Service and Privacy Policy links but no license or registration number.
- Hosting is on AS133618 (TRELLIAN-AS-AP - Trellian Pty. Limited, AU).
- TLS uses issuer YR1 with DV validation and is valid to 2026-11-12.

What to Verify Next

Any intended visit should first be confirmed through an independently obtained source rather than through links or claims encountered on the domain. If the domain is being considered for purchase, the auction status should be confirmed through Dynadot's official service and an independently accessed support channel. If the site later presents a regulated product or requests funds, the named operator and applicable authorization should be checked directly against the relevant official registry before any interaction.

EVIDENCE

- The homepage explicitly describes the domain as potentially available through an auction, making independent confirmation of the sale channel appropriate.
- The captured site has no active service, login, payment, or sensitive-data workflow to validate.
- The Terms of Service and Privacy Policy pages are the available legal-documentation points for checking any future operator or activity disclosures.

Summary Verdict

The overall posture is **critical trust risk** with a sensitive-interaction risk classification. The site's parked presentation does not offset the confirmed external threat contradiction, and the available evidence does not independently establish a legitimate real-world operator.

Infrastructure Integrity

The domain resolves through infrastructure operated by Trellian Pty. Limited in Australia, with no CDN or WAF identified and five likely origin IPs observed. The direct hosting posture provides identifiable technical routing but offers no protective infrastructure-based mitigation for the reputation risk.

Closing Assessment

Interaction should be limited to passive observation, with no login, credential submission, financial activity, or other sensitive action undertaken unless the domain's legitimacy is independently established through trusted channels.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01

Governance Risk
 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.

Registration and ownership rule:KF_WHOIS_HIDDEN
- 02

Sensitive Interaction Risk
 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 33178.cc.

- The request stayed on 33178.cc. It was not redirected to another domain. CLEAR
- Registration is published under DYNADOT LLC. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-13. NOTED
- The earliest public archive of this site is from 2021-11-23. CLEAR
- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 33178.cc at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
