

Is 365aayy.com a scam? TrustSniffer's high-risk assessment: 0/100

365aayy.com

Verdict

0

OUT OF 100

CRITICAL RISK

365aayy.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

A Chinese-language corporate website for a Qingdao-based pallet manufacturer and logistics/port services provider. Pages include product listings, company info, news, recruitment, and contact details. Content contains repetitive keyword insertion referencing 'Mostbet新手指南' but overall appears to be a B2B product/service site rather than an investment or phishing page.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 365aayy.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This Chinese-language website presents itself as a Qingdao-based manufacturer and seller of wooden and plywood pallets, packaging boxes, and related port, warehousing, loading, securing, storage, and transport services. Its apparent business model is conventional B2B product sales and logistics handling for industrial and export customers, although the site's visible title and repeated keyword insertion refer to "Mostbet新手指南," which is inconsistent with that stated business purpose.

Scam/Impersonation Risk

The site presents an ordinary corporate/B2B profile and the page analysis found no login form, hidden sensitive form, wallet connection, or explicit brand-impersonation indicator. However, this benign presentation is outweighed by confirmed external contradictions: the domain is blacklisted, 19 malicious detections and one suspicious detection were recorded, and threat detections were attributed across Fortinet, Kaspersky, and Sophos. The repeated insertion of "Mostbet新手指南" throughout the title, navigation, product names, and company text is also a material content-integrity anomaly because it does not align with the pallet-manufacturing

and logistics narrative. No identity inconsistency, phishing indicator, or direct brand impersonation was observed in the page content, but the confirmed blacklist and malicious detections make sensitive interaction inappropriate pending independent clearance.

EVIDENCE

- The homepage and navigation repeatedly insert “Mostbet新手指南” into the title, product listings, recruitment content, and company description despite presenting a pallet and logistics business.
- External reputation telemetry recorded 19 malicious detections and 1 suspicious detection; Fortinet, Kaspersky, and Sophos were among the flagged providers.
- The current registration record identifies creation on 2026-07-13 and an age of approximately 0.1 years.
- Historical archive records show activity from 2018-08-07 through 2025-12-16, covering 8 years tracked; this conflicts with the current registration record and leaves the site’s present provenance requiring clarification.

Regulatory Verification Notes

The about, company-profile, honors, news, recruitment, and contact pages describe a Qingdao enterprise that claims establishment in 2010, 15 years of industry experience, a professional technical team, and a 10,000-square-metre handling yard. Those on-site claims are not independently verified by the available evidence. The site does not present a license or registration number, and the available disclosure state is unclear; this is a regulatory and identity-verification gap rather than, by itself, proof of fraud. Ownership and governance disclosures remain opaque. A broker-reputation dataset returned no match, but that result is contextual only and does not establish licensing, corporate registration, or regulatory standing. The domain is registered through GMO Internet Group, Inc. d/b/a Onamae.com.

EVIDENCE

- The about page claims Qingdao operations, establishment in 2010, 15 years of industry experience, and provision of pallet manufacturing and port-related services.
- The honors and company pages display references to qualification certificates but do not provide a verifiable license or registration number in the supplied content.
- The domain registration record lists GMO Internet Group, Inc. d/b/a Onamae.com as registrar.
- The site’s transport encryption uses a DV certificate issued by YR2, valid through 2026-10-11T22:48:57+00:00.

What to Verify Next

Before any business engagement, an independent party should confirm the claimed Qingdao legal entity, business registration, operating address, and authority to provide export, warehousing, port, and logistics services through the relevant Chinese corporate and sector registries. Published contact details should be validated through an independently sourced telephone number or offline business record rather than relying solely on the website. The domain and hosting indicators should be rechecked by the organization’s security team, with any access restricted to an isolated, non-interactive review environment until the external detections and provenance conflict are resolved. No credentials, account access, or financial transaction should be submitted during that process.

EVIDENCE

- The about page supplies the principal corporate and operating claims that require registry confirmation.
- The contact page provides the communication channels requiring independent validation.
- The homepage contains no login form or sensitive submission form, supporting a separation between limited review and interactive engagement.
- The current registration record and historical archive record provide inconsistent dates requiring domain-control and ownership clarification.

Summary Verdict

The website has a **critical trust posture** and should not be treated as an established or verified business counterparty. Its conventional B2B presentation does not overcome the combination of confirmed external threat contradictions, unclear governance, and unresolved provenance evidence. Identity verification remains unverified.

Infrastructure Integrity

The site resolves directly to a single apparent origin hosted by AROSS-AS - AROSSCLOUD INC., US, on AS400619, with no detected CDN or WAF layer. This provides no meaningful protective infrastructure mitigation and leaves the hosting environment as a direct technical dependency for any access decision.

Closing Assessment

Organizational access should remain limited to controlled, non-interactive review until independent corporate, contact, domain, and security checks produce a clear resolution; credentials and financial activity should not be attempted in the interim.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 365aayy.com.

- The request stayed on 365aayy.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GMO Internet Group, Inc. d/b/a Onamae.com. [CLEAR](#)
- DNS for this domain is served by share-dns.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-07-13. [NOTED](#)
- The earliest public archive of this site is from 2018-08-07. [CLEAR](#)
- It is hosted on AROSS-AS, from a server in SC. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 365aayy.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
