What 3chainsurveying.com.au served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

3 Chain Surveying presents as a regional Mackay-area surveying business established in 1999, offering civil, building, volumetric, mining, construction, and related project surveying services through a quote- and contract-based professional-services model.

### Scam/Impersonation Risk

No contradictions were observed across the supplied evidence: there were no phishing, impersonation, malicious-content, blacklist, or brand-conflict indicators. The homepage and service content are coherent with a conventional surveying business, provide substantive service descriptions, and do not present cryptocurrency, investment, gambling, unusual payment, or credential-harvesting functionality. The site also showed no login form, sensitive form, hidden form, wallet activity, external posting, cloaking, or clipboard manipulation during technical interaction. Available external checks recorded no malicious or suspicious findings, although reputation coverage was partial.

#### EVIDENCE

- The homepage and service content describe civil engineering, building, mining, bridge, quarry-stockpile, bulk-earthworks, and digital-terrain surveying services.
- Domain registration continuity indicates an age of 11.14 years; archive records show 61 snapshots from 2015-06-29 through 2025-11-10, spanning 11 years.
- Technical interaction recorded 0 external XHR requests, 0 external non-whitelisted posts, 0 hidden forms, 0 wallet-connect runs, and 0 clipboard-write events.

#### Regulatory Verification Notes

The site identifies the business as 3 Chain Surveying and states that property-boundary inquiries are referred to a licensed cadastral surveyor. However, the supplied page content does not present a licensing authority or license number for the business itself, so professional-scope and contracting-party verification remain appropriate; this is a transparency and verification matter, not evidence of impersonation or fraud. Registration records identify Domain Directors Pty Ltd trading as Instra as registrar and associate the domain with The Trustee for 3 Chain Surveys atf C J SPENCER FAMILY TRUST. That registration association is a concrete administrative signal but does not independently prove the real-world operator identity. The available evidence remains consistent with an established, apparently legitimate service business.

#### EVIDENCE

- Served from AS38719 (DREAMSCAPE-AS-AP - Dreamscape Networks Limited, AU).
- TLS certificate: Sectigo Public Server Authentication CA DV R36, validation level DV, valid to 2027-03-12T23:59:59+00:00.
- Domain registrar: Domain Directors Pty Ltd trading as Instra; registrant record: The Trustee for 3 Chain Surveys atf C J SPENCER FAMILY TRUST.
- The homepage states that all property-boundary inquiries will be referred to a licensed cadastral surveyor, while no licensing authority or number is displayed in the supplied content.

#### What to Verify Next

Before a commercial engagement, independently reconcile the contracting party named in any quotation, proposal, or agreement with an authoritative business registry. For boundary-related work, confirm the referred cadastral surveyor's current professional standing through the relevant professional registry. Before any advance payment or credential submission, confirm the written scope, cancellation terms, payment recipient, and available payment-protection arrangements using independently sourced contact channels.

#### EVIDENCE

- Identity verification step: compare the legal party on engagement documents with an authoritative registry record.
- Professional-scope verification step: validate the cadastral-surveyor referral through the applicable professional register.
- Transaction verification step: review written commercial and payment terms before funds or credentials are provided.

Summary Verdict

The website has a high-trust, low-risk posture, and the available evidence is consistent with an established, apparently legitimate surveying business. The classification is well supported by convergence across coherent business content, sustained domain continuity, clean available reputation signals, and stable technical operation, while the operator’s real-world identity remains likely rather than independently verified.

Infrastructure Integrity

The site is hosted in Australia by Dreamscape Networks Limited on AS38719, with two likely origin addresses identified and no CDN or WAF detected. Its transport layer uses a currently valid Sectigo DV certificate; these infrastructure characteristics support service continuity and encrypted communication but are mitigating technical signals rather than proof of legitimacy.

Closing Assessment

Normal informational use is proportionate to the observed posture; credential or payment interactions should proceed after the ordinary independent identity, contractual, and payment-protection checks described above.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 79/100 |
| Identity verification confidence | 78%    |

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 3chainsurveying.com.au.

- The request stayed on 3chainsurveying.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Domain Directors Pty Ltd trading as Instra. CLEAR
- DNS for this domain is served by dnsnerds.com, across 4 name servers. NOTED
- The earliest public archive of this site is from 2015-06-29. CLEAR
- It is hosted on DREAMSCAPE-AS-AP, from a server in AU. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about 3chainsurveying.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
