

Is 3queensdesign.com safe? TrustSniffer's low-trust assessment: 35/100

3queensdesign.com

Verdict

35

OUT OF 100

LOW TRUST

3queensdesign.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Three Queens Design Company is a design-first studio selling custom volleyball jerseys and team apparel. The site showcases a design vault, product collections with prices, testimonials, an explanation of the quote/proof/production workflow, and contact/quote request options. It appears to be a legitimate small business ecommerce presence focused on team apparel.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Governance Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2025.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

Three Queens Design Company is a design-focused small-business website offering custom volleyball jerseys, warm-ups, and team apparel through a portfolio-led ecommerce and quotation model for volleyball programs.

Scam/Impersonation Risk

No blacklist, phishing, impersonation, or conflicting legal identities were observed. The site's content and observed behavior do not show credential-harvesting, hidden forms, suspicious scripts, or deceptive redirects. However, external abuse reports are associated with the observed IP address; the attribution identifies shared-provider infrastructure rather than this website specifically, so the signal warrants contextual caution but does not establish site-level abuse. The domain's independently verified operator identity also remains unverified.

EVIDENCE

- The homepage presents a consistent Three Queens Design Company identity, custom volleyball apparel services, design portfolio, testimonials, and quote-request workflow; no impersonation indicators were identified.
- The observed website behavior completed two successful runs with no external posts, no external XHR/fetch activity, no hidden forms, and no password forms.
- The domain registration record is dated 2026-06-10, with a reconciled domain age of 1.51 years.
- Historical records show first observation on 2025-02-13 and last observation on 2025-04-06, with 1 year tracked.

Regulatory Verification Notes

The About, Contact, and ordering-related pages provide a coherent commercial presentation, including product collections with prices, a design-proof-before-production process, nationwide shipping claims, and contact and quote-request options. The site does not present a license claim or license number, which is a transparency and verification point rather than evidence of deception for an apparel vendor. The stated business identity is not independently verified from the supplied evidence. A separate broker-intelligence source produced no name match, while page-authority signals are limited and should not be treated as proof of legitimacy.

EVIDENCE

- The homepage and product pages describe custom jerseys, warm-ups, team apparel, pricing, artwork proofs before production, and nationwide shipping.
- The Contact and Request Quote pages expose one quote/contact form and no sensitive credential-collection form.
- The website's hosting infrastructure is identified as AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The site's TLS certificate is issued by WE1 at DV validation level and is valid to 2026-11-14T13:43:31+00:00.

What to Verify Next

Before a paid order, independently confirm the business's legal trading details and return, refund, shipping, and production terms through a contact route obtained outside the website. Confirm that any quoted payment destination matches the verified business identity, use a payment method with dispute protection, and retain the written quote and artwork approval record. A small initial order is preferable to a substantial upfront commitment.

EVIDENCE

- The About, Contact, and Request Quote pages are the stated locations for business information and order initiation.
- The site provides a quote-and-proof workflow that can be retained as an order record before production.
- The available evidence contains no independently verified legal-entity or licensing reference.

Summary Verdict

The overall posture is **low trust** because the website’s commercial presentation is coherent but the available evidence does not independently establish the real-world operator, and an external infrastructure-associated reputation signal remains relevant. No direct scam or impersonation contradiction was observed, but the evidence does not support treating the site as an established, independently verified counterparty.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF, and the observed address is an edge address rather than an exposed origin. This provides a mitigating layer against direct origin exposure, but CDN protection alone does not establish the operator’s identity or business reliability.

Closing Assessment

Engagement should remain limited and payment-protected until the counterparty and transaction terms have been independently confirmed; high-value or irreversible commitments are not supported by the current evidence.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

Signals weighed against the site

- AbuseIPDB: 48 reports on hosting IP 185.158.133.1 (Internet Utilities Europe and Asia Limited, Content Delivery Network), 100% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	30%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 3queensdesign.com.

- The request stayed on 3queensdesign.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-10. NOTED
- The earliest public archive of this site is from 2025-02-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in AE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 3queensdesign.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
