

Is 5162163.com a scam? TrustSniffer's high-risk assessment: 0/100

5162163.com

Verdict

0

OUT OF 100

CRITICAL RISK

5162163.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Chinese B2B plastics distributor/manufacturer website listing product categories (PC, POE, PC/ABS, etc.), company qualifications, news, cases and contact information. Contains a contact/lead form. Footer includes many unrelated gaming links which may be poor-quality affiliate/SEO links but do not imply financial fraud.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What 5162163.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents itself as a Chinese business-to-business plastics manufacturer and distributor, offering engineering-plastic materials, product-design support, customer cases, technical news, and an online contact channel for industrial and automotive customers.

Scam/Impersonation Risk

The site carries a **materially elevated risk of harmful interaction** because external threat intelligence recorded malicious detections and confirmed blacklist placement, despite the page content presenting an apparently ordinary plastics business. The homepage's plastics catalog is inconsistent with its gaming-oriented page title and footer links to unrelated betting and gaming destinations, including multiple external links that are unrelated to industrial materials. Automated interaction testing also observed non-whitelisted external posts and requests, a suspicious network classification, and substantial DOM changes after interaction. There is no confirmed brand impersonation, phishing form, or conflicting legal-entity naming in the supplied page evidence. Evidence:

- External reputation testing recorded 16 malicious detections and a Tier-1 threat detection associated with the website; the site was also present on two blacklist sources.
- The homepage presents PC, POE, PP, POM, ABS, and other engineering-plastic categories, while its page title contains gaming-oriented wording and its footer contains numerous unrelated gaming links.
- Behavioral testing recorded 2 external XHR requests and 2 external posts, all classified as non-whitelisted, with a maximum external activity proportion of 64.7% and a maximum post-interaction DOM difference of 762.
- Domain continuity evidence records an age of 3.077344284736482 years, with 4 archive snapshots across 2 tracked years from 2023-07-22 to 2024-06-03; the current registration record lists creation on 2026-05-21 and a WHOIS age of 0.25 years.

Regulatory Verification Notes

The legal and commercial presentation is not sufficient to establish the operator's real-world identity. The site claims that 塑达利塑胶新材料（上海）有限公司 has import and export rights, distributes Wanhua Chemical products, and holds ISO 9001, ISO 14001, ISO 45001, and several AAA-style enterprise certifications; these claims remain on-site assertions rather than independently verified credentials. No license or registration number is disclosed for the stated plastics-distribution activity, which is a verification gap rather than standalone proof of fraud. The available broker-reputation dataset contains no matching broker record. Evidence:

- The homepage and About page identify the business as 塑达利塑胶新材料（上海）有限公司 and provide a Shanghai address, telephone number, and contact channel.
- The About page claims Wanhua Chemical distribution relationships and ISO 9001, ISO 14001, ISO 45001, and multiple AAA certifications.
- The site's transport encryption uses a DV certificate issued by YR2, valid until 2026-10-19T23:38:55+00:00.
- The domain's registrar is Name SRS AB.

What to Verify Next

Before any sensitive interaction, an organization should independently confirm the named company's registration and current operating status through the relevant Chinese corporate registry, and validate the stated ISO certifications and Wanhua Chemical distribution relationship directly with the issuing or principal organizations. Contact details should be confirmed through an independently sourced corporate record rather than relying solely on the website. Any business engagement should also use payment protections and contractual counterparty checks appropriate for an industrial supplier. Evidence:

- The About page contains material corporate, certification, and distributor claims that require independent confirmation.
- The contact page provides an address, telephone number, and lead form that can be compared against independent corporate records.
- The homepage's unrelated gaming-link contamination warrants confirmation that the site is the intended official domain before commercial correspondence or document exchange.

Summary Verdict

The website should be treated as a critical sensitive-interaction risk. Its plausible corporate plastics presentation does not offset the confirmed external threat detections and blacklist status, and the operator's identity is not independently verified. Routine viewing may be possible, but login, credential submission, financial activity, and transmission of sensitive business information are not supported by the available evidence.

Infrastructure Integrity

The site resolves directly to a single origin address without a detected CDN or WAF, so there is no identified edge-protection layer mitigating exposure of the hosting infrastructure. Confirmed technical evidence places it on AS137951, operated by ASLINE-AS-AP – ASLINE LIMITED, HK, with the resolved address located in Seychelles and registered through AFRINIC; the infrastructure record also contains a geo-registry mismatch heuristic. Evidence:

- Hosted on AS137951 (ASLINE-AS-AP – ASLINE LIMITED, HK), resolved to 154.218.140.198.
- Infrastructure telemetry records 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN or WAF vendor was detected.

Closing Assessment

The appropriate enterprise posture is to restrict activity to non-sensitive observation and suspend login, credential, financial, and confidential-information exchanges until the operator and business claims have been independently validated.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, behaviour in a sandbox, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 5162163.com.

- The request stayed on 5162163.com. It was not redirected to another domain. CLEAR
- Registration is published under Name SRS AB. CLEAR
- DNS for this domain is served by share-dns.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-21. NOTED
- The earliest public archive of this site is from 2023-07-22. CLEAR
- It is hosted on ASLINE-AS-AP, from a server in SC. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 5162163.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
