

Is 6-one.com.tw legit? TrustSniffer's high-trust assessment: 93/100

6-one.com.tw

Verdict

93

OUT OF 100

HIGH TRUST

6-one.com.tw appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Official-looking website for a long-established Kaohsiung tutoring center offering exam prep classes, teacher bios, course descriptions, news and contact info including address and phone.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What 6-one.com.tw served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the online presence of 宏儒升大學, a Kaohsiung-based tutoring and university-entrance preparation center. It presents examination-preparation courses, teacher profiles, admissions guidance, student-result content, news, location information, and contact or trial-lesson arrangements, with an apparent business model based on paid courses, enrollment fees, and educational consulting.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there were no confirmed phishing, impersonation, malicious-reputation, or conflicting-identity signals. A page-level comparison produced a lookalike similarity associated with a hyphenated variant of “one.one,” but this was not assessed as brand impersonation and is outweighed by the site’s consistent education-focused content. Interaction testing also found no login form, hidden sensitive form, password-exfiltration form, wallet connection, or wallet-draining behavior.

EVIDENCE

- The homepage presents a coherent tutoring-center profile, including university-entrance courses, teacher biographies, admissions guidance, news, and contact information; the page-level risk findings contained no red flags.
- The domain was registered on 2005-09-04 and is 20.97 years old.
- The historical record was first seen on 2003-07-01 and last seen on 2026-06-11, covering 24 years.
- Available external reputation checks reported no malicious or suspicious detections, no abuse reports, and no broker-dataset match; coverage was partial.

Regulatory Verification Notes

The site's legal and identity presentation is broadly consistent with an established local education provider, but the real-world operator identity remains independently unverified. The homepage and related About, Courses, Teachers, News, Contact, and Privacy pages provide substantive business and service information, including the founder or executive name 吳清亮 and staff profiles; the registration record identifies 高雄市立私立宏儒升學文理短期補習班. These signals support apparent legitimacy without proving that the website operator and the registered entity are the same party. The site does not present a license authority or registration number in the supplied content, so licensing status should be treated as an ordinary disclosure item requiring confirmation rather than as evidence of misconduct.

EVIDENCE

- The registration record lists FET/NCIC as registrar and identifies 高雄市立私立宏儒升學文理短期補習班 as both owner and organization.
- The homepage and About, Courses, Teachers, News, Contact, and Privacy pages provide a structured educational-service footprint with course descriptions, staff information, and contact arrangements.
- The site is hosted on AS131626, NSS-GROUP-AS-TW - NSS INT_L CO., LTD., TW.
- The site's TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-10-10T22:54:42+00:00.

What to Verify Next

Before a financial commitment or submission of personal information, an interested party should independently confirm that the registered tutoring entity operates at the contact details published on the site, obtain written course-fee and cancellation or refund terms, and confirm payment protections appropriate to the transaction. Any licensing or local education-registration requirement applicable to the specific service should be checked with the relevant Taiwanese authority or registry. For future credential or payment interactions, official contact channels should be confirmed through an independent route rather than relying solely on a page reached through an unsolicited message.

EVIDENCE

- The Contact page provides the site's stated address and telephone information for independent confirmation.
- The site exposes a trial-booking or contact-inquiry form rather than a password-login form.
- The homepage and course pages describe the services that would form the basis of any enrollment or payment arrangement.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate, low-risk educational website and supports a high-trust posture. No scam or impersonation contradictions were observed, although the connection between the website and a verified real-world operator has not been independently established.

Infrastructure Integrity

The site resolves directly to one likely origin IP rather than through a detected CDN or WAF, and its infrastructure is attributed to NSS INT_L CO., LTD. in Taiwan. This provides a clear hosting attribution but fewer edge-layer protections than a CDN-backed deployment; it is a technical characteristic and not, by itself, an adverse legitimacy signal.

Closing Assessment

Ordinary engagement is proportionate to the available risk posture, provided that merchant identity, service terms, and payment protections are independently confirmed before any credential or payment interaction.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of 6-one.com.tw.

- The request stayed on 6-one.com.tw. It was not redirected to another domain. CLEAR
- Registration is published under FET/NCIC. CLEAR
- DNS for this domain is served by zoneedit.com. NOTED
- The registration is paid up to 2027-09-04. NOTED

- The earliest public archive of this site is from 2003-07-01. CLEAR
- It is hosted on NSS-GROUP-AS-TW, from a server in TW. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about 6-one.com.tw at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
