

Is a-style24.ru a scam? TrustSniffer's high-risk assessment: 0/100

a-style24.ru

Verdict

0

OUT OF 100

CRITICAL RISK

a-style24.ru shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for "А-Стиль", an architectural bureau in Krasnoyarsk. Contains portfolio items, services offered, company description, address and contact emails/phone numbers. No signs of financial solicitation or credential harvesting.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What a-style24.ru served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2012.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents “А-Стиль” as a Krasnoyarsk-based architectural bureau offering architectural design, residential and office interior design, landscape planning, project documentation, and related professional services through a portfolio-oriented corporate site.

Scam/Impersonation Risk

The site’s visible content is consistent with a conventional architectural-services business: it displays project examples, service descriptions, a company name, a physical address, telephone numbers, and contact channels, with no observed login form, credential-collection mechanism, financial solicitation, or crypto-related functionality. However, this benign presentation is materially outweighed by confirmed external threat detections: the domain is blacklisted, ten malicious detections and one suspicious detection were recorded, and Fortinet and Sophos identified the site or domain within their threat-intelligence coverage. The result is a direct contradiction between apparently ordinary on-page content and a severe external reputation signal; the website should therefore be treated as potentially compromised, misused, or otherwise unsafe for sensitive interaction.

No separate identity inconsistency, brand impersonation, or phishing mechanism was identified in the supplied page analysis.

EVIDENCE

- The homepage presents an architectural portfolio, service descriptions, and the “А-Стиль” business identity rather than a financial or credential-harvesting workflow.
- The homepage behavior assessment recorded no login form, hidden sensitive form, external password submission, wallet connection, or suspicious inline script.
- External reputation telemetry recorded 10 malicious detections and 1 suspicious detection; Fortinet and Sophos were the flagged vendors, and the domain was present on an external blacklist.
- Historical analysis recorded no confirmed suspicious repurposing or semantic drift; the domain record shows 36 archive snapshots spanning 2012–2026, covering 15 tracked years.

Regulatory Verification Notes

The site identifies itself as ООО «А-Стиль» and presents a Krasnoyarsk office address, but the supplied evidence does not independently verify that operator identity. The legal and governance disclosure position is therefore unclear, and no license or registration number is claimed on the site. For an architectural-services business, that omission is a transparency and verification matter rather than, by itself, proof of fraud; nevertheless, the confirmed blacklist status makes independent confirmation of the contracting entity especially important. The available broker-reputation dataset did not produce a match, which provides no affirmative regulatory or legal validation.

EVIDENCE

- The homepage’s “About” and contact content names ООО «А-Стиль» and gives an office address in Krasnoyarsk.
- The supplied site content contains no stated license authority or license number.
- Domain registration data records registration on 2020-06-08, with an age of approximately 6.2 years and expiry on 2027-06-08.
- The site uses a DV TLS certificate issued by YR1, valid until 2026-10-14.

What to Verify Next

Before any contract, payment, document exchange, or account-related interaction, the proposed legal counterparty should be checked independently against the relevant Russian corporate registry and, where applicable, the professional or construction-related registry governing the specific service. The physical address and telephone details should be validated through an independent offline or trusted business-record source rather than relying solely on the website. The domain and any files or documents received from it should also be assessed by the organization’s endpoint, email, and web-security controls, with suspicious detections escalated to security personnel.

EVIDENCE

- The homepage supplies the legal name and business contact details needed for an independent registry and counterparty check.
- The site describes paid architectural design and project services, making contract-party and payment verification relevant before engagement.
- External telemetry identifies the domain as blacklisted and maliciously detected, providing a concrete basis for security escalation before sensitive activity.
- Hosting telemetry identifies AS28753, allowing enterprise security teams to apply domain, ASN, and content controls during review.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. Although the website appears superficially consistent with a small professional-services firm, the confirmed external threat and blacklist signals dominate the assessment, while the real-world operator remains unverified.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no CDN detected. It is hosted by Leaseweb Deutschland GmbH under AS28753, while the resolved infrastructure is geolocated to AE; this identifiable hosting arrangement offers useful technical attribution but does not establish legitimacy or offset the reputation findings.

EVIDENCE

- Hosting infrastructure: AS28753, Leaseweb Deutschland GmbH, DE; resolved address 5.61.45.54; infrastructure country AE.
- The infrastructure record reports 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN was detected, although the infrastructure assessment marked the CDN trust context as true.

Closing Assessment

Interaction should be limited to passive viewing, with login, credential submission, document uploads, payments, and other sensitive actions withheld unless the domain's security status and the contracting entity are independently cleared by the responsible security and business-verification functions.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of a-style24.ru.

- The request stayed on a-style24.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGRU-RU. CLEAR
- DNS for this domain is served by 45.54, across 2 name servers. NOTED
- The registration is paid up to 2027-06-08. NOTED
- The earliest public archive of this site is from 2012-10-02. CLEAR
- It is hosted on LEASEWEB-DE-FRA-10, from a server in AE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about a-style24.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
