**DR. AARTI MILIND
KARANDE**

What aartimkarande.in served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This is a personal academic and professional portfolio website presenting itself as the official site of Dr. Aarti Milind Karande, with an academic CV, publications, workshops, training activities, projects, contact details, and a newsletter mention; its apparent purpose is informational self-presentation rather than commerce, investment, or financial services.

Scam/Impersonation Risk

The site's visible content is consistent with a personal academic portfolio and does not present a login form, payment workflow, investment solicitation, or other credential-harvesting mechanism. However, this benign page presentation is outweighed by a **confirmed external blacklist condition** and multiple malicious detections from external reputation sources. The available evidence does not establish the cause of those detections, and it does not show a page-level brand impersonation or phishing form; nevertheless, the discrepancy between the site's ordinary academic presentation and the external threat reputation creates a material risk for sensitive

interaction. Identity verification also remains unconfirmed, so the site's apparent connection to the named individual should not be treated as independently established.

EVIDENCE

- The homepage presents an academic and professional portfolio with no login, payment, investment, or sensitive submission form detected.
- External reputation telemetry recorded 15 malicious detections and 1 suspicious detection, with a confirmed blacklist condition.
- Domain registration record: registered 2014-07-19T06:58:01Z, approximately 12.09 years old.

Regulatory Verification Notes

The site appears informational rather than a regulated financial or investment service, and no licensing claim is presented in the supplied content. The technical registration record identifies Own Web Solution Pvt. Ltd. as registrar and Chaitanya Infoservice Pvt Ltd as the registrant organization, while the website presents itself as belonging to Dr. Aarti Milind Karande; this record supports technical traceability but does not independently verify the individual's control of the site. The absence of a clear legal or licensing disclosure is therefore a verification gap, not by itself evidence of a scam. A third-party broker-database check produced no match, but that result is limited reputational context and does not resolve the external blacklist concern.

EVIDENCE

- Domain registration record lists Own Web Solution Pvt. Ltd. as registrar and Chaitanya Infoservice Pvt Ltd as the organization, with expiration on 2027-07-19T06:58:01Z.
- Hosting infrastructure: AS47583, AS-HOSTINGER - Hostinger International Limited, CY.
- TLS certificate: issuer YE1, domain validation (DV), valid to 2026-10-16T08:10:23+00:00.

What to Verify Next

Before any sensitive interaction, an independent offline or institutionally published channel should confirm that the domain is officially associated with Dr. Aarti Milind Karande. The stated current principal role and institutional affiliation should be checked directly against the institution's own published records, and the blacklist status should be reviewed through the organization's security process before the domain is permitted for credentialed or financial use. Any licensing question should be assessed with the relevant authority only if the proposed activity extends beyond the informational services described on the site.

EVIDENCE

- The homepage states that Dr. Aarti Milind Karande currently works as principal at Atma Malik Institute of Technology & Research Center.
- The profile states prior employment as an assistant professor at Sardar Patel Institute of Technology and identifies academic qualifications and research affiliations.
- The supplied content describes publications, workshops, trainings, talks, and contact activity rather than a regulated commercial service.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. Although the website’s visible purpose and behavior resemble a conventional academic portfolio, the confirmed external blacklist condition and malicious reputation detections prevent the site from being treated as trustworthy for credentialed, financial, or other sensitive use.

Infrastructure Integrity

The site resolves through Hostinger infrastructure on AS47583 in Ukraine, with no detected CDN or WAF edge layer and likely origin IP exposure. Transport encryption is present through a DV certificate issued by YE1, which protects the connection but does not establish the legitimacy of the operator or offset the external threat reputation.

Closing Assessment

Access should remain limited to passive review until the domain’s association with the named individual and its external threat status have been independently resolved; credentials, confidential information, and financial activity should not be submitted in the interim.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aartimkarande.in.

- The request stayed on aartimkarande.in. It was not redirected to another domain. CLEAR
- Registration is published under Own Web Solution Pvt. Ltd.. CLEAR

- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-07-19. NOTED
- The earliest public archive of this site is from 2017-10-03. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aartimkarande.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
