Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Sejwal's ABC Play School is an informational website for a local early-education institution in New Delhi, presenting its programmes, facilities, admissions information, testimonials, gallery content, address, telephone numbers, and contact details to prospective parents.

Scam/Impersonation Risk

No contradictions were observed. The site presents a conventional local-school model rather than a financial, cryptocurrency, or credential-harvesting service: its pages describe childcare and early-education programmes, and testing found no login form, sensitive form, payment solicitation, wallet connection, cloaking, or suspected brand impersonation. The domain and available historical evidence are also consistent with an established operating website rather than a recently repurposed or deceptive property.

EVIDENCE

- The homepage identifies Sejwal's ABC Play School and provides programme, facilities, admissions, testimonial, and gallery content.
- The observed site behavior recorded no login forms, hidden forms, wallet connections, clipboard activity, suspicious inline scripts, or cloaking.
- The domain was registered in 2016 and is approximately 9.99 years old.
- Historical records contain 27 archive snapshots from 2018-06-29 through 2025-03-18, covering 8 years.

Regulatory Verification Notes

The website makes a specific institutional disclosure: it states that the school operates under “Sejwal's Educational, Charitable and Welfare Society” and gives registration number “S/RS/DW(SW)237/2018.” This supports an apparent local institutional identity, but the operator's real-world identity remains independently unverified. No separate educational-regulator licence claim or licence number is presented, so the legal and regulatory position should be treated as a transparency item requiring ordinary confirmation rather than as evidence of wrongdoing. Available external checks showed no blacklist or Google Safe Browsing hit, and no abuse reports were recorded; coverage was partial and therefore does not constitute universal reputation clearance.

EVIDENCE

- The homepage states the school's society name and registration number as “S/RS/DW(SW)237/2018.”
- Domain registration records identify Endurance International Group India Private Limited as registrar and Cyberkeys as the registrant organization.
- The site is served through AS133643, EWEBGURU-AS - EWEBGURU, IN.
- The transport certificate uses DV validation, is issued by YE2, and is valid to 2026-10-29T06:22:36+00:00.

What to Verify Next

Before any fee, deposit, or credential interaction, an institution or payment provider should independently confirm the stated society registration with the relevant Indian registry, validate that the published address and telephone channels correspond to the school, and obtain written fee, admission, refund, and safeguarding terms. Any payment should use a method providing appropriate transaction records and dispute or payment-protection mechanisms.

EVIDENCE

- The homepage and admissions material provide the stated institutional identity and admission pathway for independent confirmation.
- The contact and homepage content provide address and telephone details suitable for an offline confirmation.
- The site's business model is informational, with no sensitive payment or login form exposed during observation.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate local educational website and supports a high-trust, low-risk posture. The classification is not equivalent to independent proof of the real-world operator’s identity, so legitimacy should be regarded as evidence-consistent rather than conclusively verified.

Infrastructure Integrity

The site resolves directly to a single origin IP, with no detected CDN or WAF edge layer and no separate edge-IP set. This is a neutral infrastructure characteristic: it provides less intermediary protection than a CDN-backed deployment, but the observed infrastructure did not produce a separate abuse or impersonation contradiction.

EVIDENCE

- DNS resolution returned 1 unique IP, with 0 edge IPs and 1 likely origin IP.
- No CDN was detected, and no WAF vendor was identified.
- The resolved hosting country is India, with APNIC listed as the registry.

Closing Assessment

Ordinary browsing and routine school-related interaction are proportionate to the available evidence, while independent institutional and payment-protection checks should precede material financial commitments or submission of sensitive credentials.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of abcplayschool.co.in.

- The request stayed on abcplayschool.co.in. It was not redirected to another domain. CLEAR
- Registration is published under Endurance International Group India Private Limited. CLEAR
- DNS for this domain is served by ewebguru.com, across 2 name servers. NOTED
- The registration is paid up to 2026-08-26. NOTED
- The earliest public archive of this site is from 2018-06-29. CLEAR
- It is hosted on EWEBGURU-AS, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [abcplayschool.co.in](https://www.abcplayschool.co.in) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
