

Is abzarsaeid.ir legit? TrustSniffer's high-trust assessment: 100/100

abzarsaeid.ir

Verdict

100

OUT OF 100

HIGH TRUST

abzarsaeid.ir appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Persian-language ecommerce storefront for 'ابزار سعيد' offering various tools and accessories, product prices in toman, account login/registration, cart functionality, contact phone and delivery/return assurances.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2022.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This Persian-language website is an online retail storefront for “ابزار سعید” (“Saeid Tools”), presenting tools and hardware for sale in toman, with product listings, account registration and login, cart and checkout functions, and stated delivery, warranty, and return arrangements.

Scam/Impersonation Risk

No contradictions were observed. The site presents a conventional retail model rather than investment, cryptocurrency, or other high-risk monetization, and the available technical and reputation signals do not indicate phishing, impersonation, malicious behavior, or an external threat listing. The account forms are consistent with the stated ecommerce functionality, although independent operator identity remains unverified.

EVIDENCE

- The homepage presents a coherent tools-and-hardware catalogue, pricing, cart functionality, and standard customer-account flows.
- The domain was registered in 2022 and is approximately 3.75 years old.
- Historical records cover 2022–2025, with 13 consolidated archive snapshots across 4 years and no indicated category repurposing.

Regulatory Verification Notes

The about, FAQ, terms, contact, delivery, warranty, and returns content supports an ordinary retail operation, but the available material does not independently establish the legal entity operating the store. No financial-services licence is relevant to the stated business model, and no licensing claim or registration number is presented for independent confirmation. The absence of a broker-dataset match and the clean available external reputation are supportive contextual signals, not legal or regulatory determinations.

EVIDENCE

- The site's terms, FAQ, contact, delivery, and returns pages describe customer-facing commerce arrangements but do not independently verify the operating entity.
- The site uses the IRNIC registrar.
- The site's TLS certificate was issued by YR1 at DV validation level and is valid through 2026-10-24.

What to Verify Next

Before credential or payment activity, an interested party should confirm that the merchant name, telephone contact, delivery terms, warranty conditions, and return process correspond to an independently sourced business identity. Any applicable commercial registration or sector-specific authorization should be checked with the relevant Iranian registry rather than relying solely on on-site statements. Payment should use a method providing appropriate transaction dispute and consumer-protection mechanisms, and account credentials should not be reused elsewhere.

EVIDENCE

- The contact page provides a telephone channel that can be checked independently.
- The terms and FAQ pages provide the stated basis for returns, delivery, and warranty handling.
- The account pages support login, registration, and password-reset functions, making credential hygiene relevant before account creation.

Summary Verdict

The overall posture is **high trust and low risk**, and the evidence is consistent with an established, apparently legitimate ecommerce website. This classification supports normal consideration of the site for its stated retail purpose, while remaining distinct from proof of the real-world operator's identity.

Infrastructure Integrity

The site resolves directly through FANAPTELECOM-FCP infrastructure in Iran, with no detected CDN or WAF layer and one apparent origin address. Direct hosting is not inherently suspicious; the valid transport encryption and stable infrastructure provide a mitigating technical signal, but infrastructure alone does not establish merchant legitimacy.

EVIDENCE

- Hosted on AS24631, FANAPTELECOM-FCP – Tose_h Fanavari Ertebabat Pasargad Arian Co. PJS, IR.
- The resolved server IP is 37.191.95.86; one unique IP was observed and no CDN was detected.

Closing Assessment

Ordinary use may proceed in proportion to the transaction, provided independent merchant-identity, fulfilment, returns, and payment-protection checks are completed before submitting credentials or payment information.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of abzarsaeid.ir.

- The request stayed on abzarsaeid.ir. It was not redirected to another domain. CLEAR
- Registration is published under IRNIC. CLEAR
- DNS for this domain is served by npdns.org, across 2 name servers. NOTED
- The earliest public archive of this site is from 2022-11-20. CLEAR
- It is hosted on FANAPTELECOM-FCP, from a server in IR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about abzarsaeid.ir at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
