Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

ACCESSTRADE is an established affiliate-marketing and performance-commerce platform serving publishers, advertisers, KOCs, influencers, and direct-to-consumer campaigns in Vietnam and Southeast Asia. It presents commission-based earning opportunities, advertiser growth services, training, corporate information, offices, policies, and contact channels, with the apparent purpose of connecting promotional partners to measurable sales and lead-generation campaigns.

Scam/Impersonation Risk

No contradictions were observed across the reviewed pages and technical signals. The site presents a coherent corporate and marketplace identity, with no evidence of phishing, credential harvesting, brand impersonation, malicious content, or deceptive investment activity. Its commercial model is based on performance commissions rather than user deposits, which is consistent with the site's stated purpose.

- The homepage identifies ACCESSTRADE as an affiliate-marketing platform for publishers, advertisers, KOCs, and D2C campaigns.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist finding; the domain ranked 97,825 and remained within the global top one million.
- The site's interaction analysis recorded no wallet-drainer activity, hidden forms, clipboard hijacking, or cloaking.

Regulatory Verification Notes

The site's legal, company, policy, and contact content supports a credible commercial identity, but the reviewed pages do not state a specific financial-services license or registration number. That is a transparency item for confirming the precise regulatory perimeter of the business, not evidence of impersonation or fraud. The homepage advertises income of up to 50 million VND per month, commissions of up to 45%, campaigns exceeding 500,000 VND per order, and a publisher network exceeding 2.5 million; these are commercial claims that should be understood as marketing representations rather than guaranteed returns. No relevant third-party broker match was identified.

- The homepage describes Access Affiliate, Access D2C, Access KOC, Advertiser, Publisher IQ, and Academy offerings.
- The hosting infrastructure is served from AS14061 (DigitalOcean, LLC, US).
- The site's TLS certificate was issued by YR2 at DV validation level and is valid through 2026-09-21.

What to Verify Next

For regulated or high-value commercial engagements, confirm the applicable Vietnamese business or sector registration through the relevant official registry and validate contractual commission, payout, and advertiser terms before onboarding. Contact channels should also be confirmed through the company's independently established public channels.

- The company, policies, contact, and advertiser pages provide the appropriate starting points for registry and contractual checks.
- The publisher and advertiser materials define the commercial relationship that should be reviewed before participation.

Summary Verdict

ACCESSTRADE presents as a legitimate, established, and trustworthy commercial platform with a coherent business purpose and no observed scam or impersonation contradictions. Normal interaction, including account login and standard platform use, is appropriate.

Infrastructure Integrity

The site benefits from CDN/WAF protection, with observed traffic terminating at a CDN edge and no origin candidate identified. This reduces direct exposure of the underlying service and is a mitigating infrastructure control, while DigitalOcean hosting remains infrastructure context rather than proof of legitimacy.

Closing Assessment

Standard platform use is appropriate; prospective business participants should complete the applicable registry and contractual checks before entering a material commercial arrangement.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of accesstrade.vn.

- The request stayed on accesstrade.vn. It was not redirected to another domain. CLEAR
- It is hosted on DIGITALOCEAN-ASN, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about accesstrade.vn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
