Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is a commercial website for Acesso Andaimes, a Guarulhos, Brazil-based scaffolding and construction-equipment rental business. It presents scaffold and accessory rentals, technical support, safety-related claims, contact details, and quote requests, with an apparent local-service model rather than a financial, credential, or cryptocurrency service.

Scam/Impersonation Risk

The site content is consistent with a local equipment-rental operation: the homepage describes tubular and façade scaffolding, metallic shoring, pillar bracing, wheels, metal floors, guardrails, anchors, tubes, clamps, and technical assistance, while inviting visitors to request a quotation. Page-level inspection found no login form, hidden sensitive form, wallet connection, credential-harvesting behavior, or brand-impersonation signal. However, this benign presentation is outweighed by confirmed external contradictions: three malicious detections, one suspicious detection, and confirmed blacklist status across external reputation sources. The evidence does not establish that the website impersonates a named brand, but the external detections create a material risk for sensitive interaction and prevent the site from being treated as trustworthy for credentials, payments, or other high-impact actions.

EVIDENCE

- Homepage: identifies Acesso Andaimes as a scaffolding and equipment-rental business and lists local services, accessories, technical support, and quote requests.
- Page behavior: no login form, hidden form, password-external form, wallet connection, clipboard hijacking, or suspicious inline script was detected.
- External reputation assessment: 3 malicious detections, 1 suspicious detection, and confirmed blacklist status across 2 external sources.
- Domain registration record: registered 2005-07-20; age 21.1 years; expiry 2027-07-20.

Regulatory Verification Notes

The reviewed pages provide a business name, a physical address in Guarulhos, telephone numbers, and service descriptions, supporting an apparent local commercial identity. That identity is not independently verified by the available evidence. The pages do not claim a regulatory license or provide a registration number; for this type of equipment-rental service, that is a disclosure and verification gap rather than standalone evidence of fraud. A valid domain-level TLS certificate and identifiable hosting are positive technical conditions, but they do not validate the operator, the business address, or any contractual obligations.

EVIDENCE

- Homepage and contact content: publishes a Guarulhos address, telephone numbers, business name, service descriptions, and a quotation request.
- Homepage: states that equipment follows NR-18 standards; no licensing authority or license number is stated.
- Hosting telemetry: served from AS31898 (ORACLE-BMC-31898 - Oracle Corporation, US).
- TLS telemetry: certificate issued by YR2, validation level DV, valid to 2026-09-26.

What to Verify Next

Before any sensitive or financially consequential interaction, an independent check should confirm that the business name, address, telephone numbers, and quotation contact correspond to a real operating rental company. Any applicable Brazilian business registration, contractual terms, insurance or safety documentation, and payment recipient should be checked through authoritative or independently obtained records rather than relying solely on the website. Official contact channels should also be confirmed through an offline or independently sourced route.

EVIDENCE

- Contact page and homepage: provide the identity and location details that can be matched against independent business records.
- Services content: makes NR-18 compliance claims that should be supported by current documentation where relevant to a planned rental.
- Quotation process: the site directs prospective customers to request pricing, making the quoted legal entity and payment beneficiary key pre-transaction checks.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interaction**. The website has a plausible local-business presentation and no observed credential-harvesting behavior, but confirmed external reputation contradictions materially undermine confidence. The real-world operator identity remains unverified, so apparent legitimacy should not be treated as established identity.

Infrastructure Integrity

The site resolves to a single hosting address, with no CDN detected and no separate edge or origin candidates identified. Its hosting is associated with Oracle Corporation in the United States on AS31898; these infrastructure characteristics provide technical context but are not proof of legitimacy or a basis to offset the external reputation risk.

Closing Assessment

Prospective users should restrict activity to independently validated, non-sensitive business inquiries until the operator, contractual terms, and payment arrangements have been confirmed through authoritative or offline channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of acessoandaimes.com.br.

- The request stayed on acessoandaimes.com.br. It was not redirected to another domain. CLEAR

- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2027-07-20. NOTED
- The earliest public archive of this site is from 2007-10-31. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about acessoandaimes.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
