

Is acheconcursos.com.br legit? TrustSniffer's high-trust assessment: 90/100

acheconcursos.com.br

Verdict

90

OUT OF 100

HIGH TRUST

acheconcursos.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 75%.

What this site appears to be

Portuguese-language portal focusing on public exam (concurso) announcements, editais, vacancies by region and related news and study resources. Typical sections include latest openings, region filters, articles and a search tool to find specific concursos.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The Portuguese-language Ache Concursos website is an informational news and listing portal covering Brazilian public-sector examinations, including open and planned concursos, regional vacancies, edital announcements, related news, and study resources. Its apparent business model is editorial coverage supported by advertising, sponsored listings, and related directory or promotional activity.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there were no phishing or impersonation indicators, no confirmed blacklist signal, no malicious or suspicious external reputation findings, and no suspicious forms or credential-harvesting behavior. The site's content is consistent with an established examination-news portal rather than a deceptive service, and its long, continuous historical presence supports provenance continuity. The operator's real-world identity is not independently verified, so the legitimacy assessment remains evidence-consistent rather than identity-proven.

EVIDENCE

- The homepage presents concurso announcements, editais, vacancies, regional filters, news, and study-oriented content, with no detected login form or sensitive data-collection form.
- Domain registration evidence records creation on 2008-07-31, with an age of 18.04 years and expiry on 2027-07-31.
- Historical records show 5,000 snapshots spanning 2008-12-04 to 2025-12-20, covering 18 years with a maximum recorded gap of 1 year.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist or phishing finding.

Regulatory Verification Notes

The site presents itself as a news and information portal, not as a financial, employment-placement, or other regulated service requiring a prominently asserted license. The available material does not independently establish the legal entity operating the publication, and the registration record naming Juliano Henrique Maas should be treated as a domain-registration association rather than proof of operator identity or corporate affiliation. Because the service may include advertising or sponsored listings, publisher contact details, sponsorship relationships, and any applicable commercial disclosures should be assessed separately. The

available third-party broker dataset reported no match; this is contextual reputation information, not a licensing or regulatory determination.

EVIDENCE

- The homepage is categorized as “Informational / News” and “News/Portal,” with a stated business model focused on public-examination listings and editorial coverage.
- The site content contains no claimed license authority or license number.
- The domain's transport encryption uses a certificate issued by YE1, with DV validation, valid to 2026-10-29.
- The site's hosting is identified as LATITUDE-SH - Latitude.sh, US.

What to Verify Next

Before any credential or payment interaction associated with advertising, sponsored services, or linked third-party offerings, an independent check should confirm the publisher's official contact and merchant identity, the applicable terms and refund or cancellation provisions, and the payment-protection arrangements. Examination dates, vacancies, salaries, and edital claims should be cross-checked against the relevant government body or official organizing institution, since the portal is an editorial aggregation source rather than the issuing authority. Any external destination reached through an advertisement or listing should be assessed as a separate website.

EVIDENCE

- The homepage contains vacancy figures, salary references, dates, and public-examination announcements that can be compared with official organizing-body publications.
- No sensitive form, password submission, wallet interaction, or untrusted form destination was detected in the analyzed page behavior.
- The observed page behavior completed successfully in 2 of 2 runs, with no cloaking, hidden forms, clipboard hijacking, or wallet-drainer activity detected.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradiction. The classification is strong at the site-risk level, while the connection to a specific real-world operator remains independently unverified.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and the observed addresses were edge endpoints rather than an exposed origin candidate. This is a mitigating security control that reduces direct origin exposure, but it is not proof of ownership or legitimacy.

EVIDENCE

- Observed edge infrastructure: 160.202.130.73 and 2804:391c:c001:22::2, both associated with AS396356; hosting provider recorded as LATITUDE-SH - Latitude.sh, US.
- TLS certificate issuer: YE1; validation level: DV; validity end: 2026-10-29T14:56:39+00:00.
- The infrastructure record identifies Cloudflare as the CDN/WAF provider and records 2 edge IPs with 0 likely origin IPs.

Closing Assessment

The site is suitable for ordinary informational use, with independent checks appropriate before credentials, payments, or reliance on commercial offerings linked from the portal.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of acheconcursos.com.br.

- The request stayed on acheconcursos.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-07-31. [NOTED](#)
- The earliest public archive of this site is from 2008-12-04. [CLEAR](#)
- It is hosted on LATITUDE-SH, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about acheconcursos.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
