

Is acrandcompany.com a scam? TrustSniffer's high-risk assessment:
0/100

acrandcompany.com

Verdict

0

OUT OF 100

CRITICAL RISK

acrandcompany.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 75%.

What this site appears to be

Official website for ACR & Company, a chartered accountancy and business consulting firm established in 2004 in Calicut, Kerala. Describes services (audit, tax, accounting, registrations, advisory), industry coverage, methodology, contact details, and office address. Appears to be a legitimate professional services site.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://acrandcompany.com/>

What acrandcompany.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

ACR & Company's website presents a professional accountancy and business-consulting practice serving businesses from Calicut, Kerala, with an apparent fee-for-service model covering financial reporting, taxation, bookkeeping, advisory work, registrations, and related compliance services.

Scam/Impersonation Risk

The site's presentation is coherent and business-focused, and no brand-impersonation indicators, login form, hidden sensitive form, wallet connection, or cloaking behavior were observed. However, the domain has confirmed blacklist status across two external sources, including multiple malicious detections and an additional suspicious detection. That external threat evidence is a direct contradiction to the otherwise legitimate-looking presentation and is sufficient to make credential, account, and financial interaction inappropriate. The apparent

business identity remains unverified; the available evidence does not establish that the on-page organization and the domain's real-world operator are the same entity.

EVIDENCE

- External reputation telemetry recorded 5 malicious detections and 1 suspicious detection among evaluated results, with a Tier-1 security vendor flag.
- The domain was first archived on 2009-07-03 and last archived on 2026-06-10, with 527 snapshots across 18 tracked years; historical analysis found strong continuity and no suspicious repurposing.
- Domain registration telemetry records creation on 2007-07-18 and an age of 19.1 years.

Regulatory Verification Notes

The homepage, About material, and Contact material describe ACR & Company as a chartered-accountancy and consulting practice and provide service descriptions, contact details, and an office address. The site does not state a license number or licensing authority in the reviewed material, so professional authorization and the claimed business identity require independent confirmation; this is a disclosure gap rather than proof of fraud. The registration record uses PDR Ltd. d/b/a PublicDomainRegistry.com, while the site's transport security is provided through a domain-validated certificate. These administrative and technical indicators do not overcome the confirmed external reputation contradiction.

EVIDENCE

- The homepage identifies "ACR & Company | Chartered Accountants in Calicut, Kerala" and describes audit, taxation, accounting, registration, advisory, and intellectual-property services.
- Domain registration telemetry lists PDR Ltd. d/b/a PublicDomainRegistry.com as registrar, with creation date 2007-07-18T08:16:21Z and expiration date 2027-07-18T08:16:21Z.
- Hosting telemetry records AS47583, AS-HOSTINGER - Hostinger International Limited, CY.
- The site's TLS certificate is issued by YE2 at DV validation level and is valid to 2026-10-20T15:50:46+00:00.

What to Verify Next

Before any engagement, an independent check should confirm the firm's professional authorization with the relevant accountancy or corporate registry, rather than relying solely on the website's self-description. The stated office and contact channels should be validated through an independently sourced business listing or an offline route, and any proposed payment or document exchange should use protections that support dispute handling and reversal. Until the blacklist findings are resolved by a trusted security assessment, sensitive interactions should remain suspended.

EVIDENCE

- The homepage provides a "Book a Consultation" call to action but no account-login or sensitive-data form.
- The Contact material supplies the channels and office details required for independent confirmation.
- The reviewed page content contains no published license number or licensing authority.

Summary Verdict

This website has a **critical trust posture** for sensitive use. Its credible professional-services presentation and long technical history are outweighed by confirmed external blacklist and malicious-detection evidence, while the real-world operator remains unverified. The appropriate classification is sensitive interaction risk rather than a finding that the displayed business identity has been conclusively disproven.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a meaningful mitigation against direct exposure and common delivery-layer abuse, but it is only an infrastructure control and does not establish legitimacy. The infrastructure includes observed edge-serving behavior and potential origin candidates, indicating a layered and somewhat complex hosting arrangement.

Closing Assessment

Prospective users should not submit credentials, initiate financial transactions, or provide sensitive business documents until independent identity, authorization, and reputation checks produce a satisfactory result.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of [acrandcompany.com](#).

- The request stayed on [acrandcompany.com](#). It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by [dns-parking.com](#), across 2 name servers. NOTED
- The registration is paid up to 2027-07-18. NOTED
- The earliest public archive of this site is from 2009-07-03. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [acrandcompany.com](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
