

Is activate-coinbase.com a scam? TrustSniffer's high-risk assessment:
0/100

activate-coinbase.com

Verdict

0

OUT OF 100

CRITICAL RISK

activate-coinbase.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

This is a parked domain landing page served by Hostinger promoting hosting, site builder, VPS, and email services with links to manage the domain or purchase hosting products.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The checks that decide most of this verdict.

Malware engines	14 flagged it VirusTotal	RISK
Google Safe Browsing	Not listed Google	CLEAR
Abuse reports on the host	33% confidence AbuseIPDB, 28 reports; shared hosting inflates reports	CLEAR
Domain age	5 months old Most scam domains are under a year old	RISK

Certificate	Encrypted connection Issued by YE2	NOTED

The page as captured

<https://activate-coinbase.com/>

Registered at  **HOSTINGER**

If this is your domain, you can manage it in your Hostinger account.

What activate-coinbase.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website is a parked-domain landing page for activate-coinbase.com, presented through Hostinger's DNS system. It offers domain-management controls and promotional links for web hosting, an AI website builder, VPS hosting, alternative domain registration, and business email rather than providing a substantive Coinbase or financial-services platform.

Scam/Impersonation Risk

The site has a material contradiction between its benign parked-page content and external threat intelligence: the domain is blacklisted and received 14 malicious detections from evaluated security providers. The page itself contains no login form, sensitive form, wallet connection, or detected brand-impersonation content, so the available evidence does not establish that the landing page is actively impersonating Coinbase; however, the domain's Coinbase-referencing name combined with the confirmed blacklist status makes sensitive interaction inappropriate. Separately, 28 abuse reports concern the shared Hostinger infrastructure IP rather than being

uniquely attributed to this domain, but that signal remains relevant because it was not discounted in the assessment.

EVIDENCE

- The homepage is identified as a parked domain and contains no login or sensitive-input form.
- External reputation checks recorded 14 malicious detections and a confirmed blacklist status for the domain.
- The hosting IP, 2.57.91.91, has 28 abuse reports attributed to shared Hostinger infrastructure rather than uniquely to the website.

Regulatory Verification Notes

The website presents itself as a parked domain and does not provide an operating-company identity, financial-services license, registration number, or regulatory status. This is a significant disclosure gap for any visitor who might interpret the domain name as connected to a financial brand, while the available evidence does not independently verify the real-world operator. The registrar is Hostinger operations, UAB; that administrative relationship does not establish ownership of the domain or legitimacy of any future service offered through it.

EVIDENCE

- The homepage states “Parked Domain name on Hostinger DNS system” and directs the domain holder to manage it through a Hostinger account.
- The domain was registered on 2026-03-19 and is recorded as approximately 0.42 years old.
- Historical records report 0 snapshots, with coverage spanning 2024-11-10 to 2026-05-21 across 3 years tracked.
- The site is served from AS47583 (AS-HOSTINGER - Hostinger International Limited, CY); its TLS certificate is issued by YE2 at DV validation level and is valid to 2026-09-08T12:08:38+00:00.

What to Verify Next

Any proposed relationship with Coinbase, financial services, account access, or payment activity should be validated through an independently sourced official channel rather than through this domain. Domain ownership and the responsible legal entity should be confirmed through authoritative registration records, and any hosting or domain-management purchase should be initiated only from an independently verified Hostinger channel. No credential, account, wallet, or financial submission should be made on the basis of this landing page.

EVIDENCE

- The homepage offers only domain management and hosting-related calls to action, not a documented financial-service offering.
- The domain name contains a financial-brand reference, but the page provides no substantiating corporate or regulatory identity.
- The available identity-verification status is unverified.

Summary Verdict

The overall posture is critical and unsuitable for sensitive interaction. The domain’s confirmed blacklist status and malicious security detections outweigh the limited benign characteristics of its parked landing page, and the available evidence does not establish a verified connection to a legitimate financial-services operator.

Infrastructure Integrity

The site resolves directly to one likely origin IP on Hostinger’s infrastructure, with no CDN detected and no identified WAF or edge-IP layer. The hosting environment provides a conventional TLS-protected connection, but that protective control is only a mitigating technical measure and does not offset the domain-level reputation concerns.

Closing Assessment

The appropriate enterprise action is to block or isolate sensitive interaction with this domain and route any legitimate Coinbase-, domain-, or hosting-related requirement through independently sourced official channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 28 reports on hosting IP 2.57.91.91 (Hostinger International Limited, Content Delivery Network), 33% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of activate-coinbase.com.

- The request stayed on activate-coinbase.com. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-19. NOTED
- The earliest public archive of this site is from 2024-11-10. CLEAR
- It is hosted on AS-HOSTINGER, from a server in CY. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about activate-coinbase.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
