

Is acueducto.com.co legit? TrustSniffer's high-trust assessment: 90/100

acueducto.com.co

Verdict

acueducto.com.co appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 75%.

What this site appears to be

Official-looking municipal water and sewerage authority site (EAAB). Contains service information, billing and payment guidance, tariffs, environmental and operational pages. Requires JavaScript for full functionality. No solicitation for deposits or high-risk financial promises detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an official-looking public-service portal branded EAAB, presenting a municipal water and sanitation authority's online presence for public information and service administration.

Scam/Impersonation Risk

No contradictions were observed. The homepage and service pages describe a public utility function rather than investment solicitation, deposit-taking, or high-risk financial activity; no phishing indicators, brand-impersonation signals, malicious detections, or suspicious forms were identified. The site's apparent continuity and content consistency support an established-site interpretation, although the real-world operator identity remains independently unverified. No independently confirmed blacklisting or equivalent contradiction is present.

EVIDENCE

- The homepage and service content identify EAAB and provide water, sewerage, billing, payment, tariff, environmental, and customer-service information; no high-risk financial promises are presented.
- The homepage analysis found no login form, hidden form, sensitive external form, wallet activity, or suspected brand impersonation.
- The domain was registered in 2002 and is approximately 23.68 years old.
- Web-archive records contain 253 snapshots spanning 2003–2026, with 24 years tracked.

Regulatory Verification Notes

The site presents itself as a public utility authority and includes dedicated areas for entity information, regulations, contracting, planning, budgets, reports, public participation, and transparency. Its business model is public service delivery supported by municipal billing rather than commercial advertising. No financial-services license claim or license number is identified in the supplied page content; this is a verification and disclosure point, not evidence of a scam. The site requires JavaScript for full functionality, while the absence of richer search-engine metadata is a presentation limitation rather than a legitimacy contradiction. Available external reputation checks were clean, and the broader evidence is consistent with an established, apparently legitimate website; independently connecting the site to a specific real-world operator is nevertheless not established.

EVIDENCE

- The transparency section of the site lists entity information, normative materials, contracting, budgeting and reporting, open data, accessibility, and digital-security information.
- The customer-service pages provide the Línea 116 channel, service points, virtual attention, appointment scheduling, and PQRSD functions.
- Hosted on AS3816 (COLOMBIA TELECOMUNICACIONES S.A. ESP BIC, CO).
- TLS certificate issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1, with OV validation, subject organization EMPRESA DE ACUEDUCTO Y ALCANTARILLADO DE BOGOTA - ESP, valid to 2026-10-10 23:59:59 UTC.

What to Verify Next

Before credential or payment interactions, independently confirm that the EAAB identity and the relevant service channels correspond to the applicable municipal or public-utility authority. Confirm any applicable billing, consumer-protection, payment, and dispute terms through an independently sourced official channel, particularly where a transaction moves beyond informational browsing.

EVIDENCE

- The site's transparency and entity-information pages provide the appropriate locations for confirming institutional details.
- The billing, payment, tariffs, and customer-service pages identify the operational areas whose terms and channels should be matched against an independent official source.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate public-service website. No scam, phishing, impersonation, or other identity contradiction was identified, but the operator connection is not independently verified.

Infrastructure Integrity

The supplied infrastructure facts do not identify a trusted CDN or WAF layer, so protective edge infrastructure should not be treated as a basis for legitimacy. This does not alter the site's overall established-site assessment.

Closing Assessment

Normal informational use is proportionate; credential or payment activity should follow ordinary independent checks of institutional identity, applicable terms, and payment protections.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

UNVERIFIED

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of [acueducto.com.co](#).

- The request stayed on [acueducto.com.co](#). It was not redirected to another domain. [CLEAR](#)
- Registration is published under Hello Internet Corp 8. [CLEAR](#)
- DNS for this domain is served by net.co, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-12-17. [CLEAR](#)
- The earliest public archive of this site is from 2003-02-09. [CLEAR](#)
- It is hosted on AS3816, from a server in CO. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [acueducto.com.co](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
