

Is adiem.mx a scam? TrustSniffer's high-risk assessment: 0/100

adiem.mx

Verdict

0

OUT OF 100

CRITICAL RISK

adiem.mx shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Official website for ADIEM, a regional association of industrialists and entrepreneurs in Morelos, Mexico. Provides information on membership, benefits, events (Industria 5.0), trainings, contact details and a business directory. Contact email and telephone are listed; event dates and registration calls-to-action are present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://adiem.mx/>

What adiem.mx served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as the official site of ADIEM, the Association of Industrialists and Entrepreneurs of Morelos, a Mexico-based non-profit business association. It offers information about organizational activities, member affiliation, training, networking, a business directory, and the Industria 5.0 event, with the apparent purpose of recruiting members and supporting regional business engagement.

Scam/Impersonation Risk

The site's visible content is consistent with a regional trade association: it contains no login form, wallet-connect mechanism, investment offer, cryptocurrency feature, or other obvious phishing or financial-scheme indicator. However, this benign presentation is contradicted by confirmed external blacklist findings, including four malicious and two suspicious detections, with a Tier-1 security provider identifying a threat. No page-level brand impersonation or conflicting legal-entity identity was observed, but the external detections create a material risk for sensitive interaction and prevent the site's apparent organizational identity from being treated as independently verified. The published contact address `contacto@adiem.mx` is also a contact-channel integrity

anomaly because its domain does not match the site's `.mx` domain and should be treated as requiring independent confirmation.

EVIDENCE

- The homepage identifies ADIEM as the Asociación de Industriales y Empresarios del Estado de Morelos and describes it as a non-profit organization.
- External reputation telemetry recorded 4 malicious detections and 2 suspicious detections; the site was also recorded as blacklisted by 2 external sources.
- Domain registration telemetry records creation on 2017-09-04, with an age of 8.96 years.
- Archive records show first observation on 2019-05-29, last observation on 2026-05-10, and 8 years tracked.

Regulatory Verification Notes

The available organizational content describes membership, events, training, representation, and business-directory services rather than a regulated financial activity. The site does not present a financial license or registration number, so any claim that a particular regulated status applies would require confirmation through the relevant Mexican registry or authority. The real-world operator remains unverified despite the site's stated association identity. The domain is long-established and uses a named registrar, but those administrative indicators do not offset the external reputation contradiction.

EVIDENCE

- The homepage presents the organization as a regional industrial and business association headquartered in Cuernavaca, Mexico.
- Registration records identify AKKY ONLINE SOLUTIONS, S.A. DE C.V. as registrar and ADIEM Asociacion de Industriales de Morelos SP as the recorded owner.
- Hosting telemetry identifies AS13335 operated by CLOUDFLARENET - Cloudflare, Inc., US.
- The site's TLS certificate is issued by WE1 with DV validation and is valid through 2026-10-04T16:36:10+00:00.

What to Verify Next

Before any membership payment, event payment, or submission of personal information, the association's legal existence and the intended payment recipient should be confirmed independently through an offline channel or a trusted public business registry. Any claimed affiliation with local industrial bodies, event sponsors, or public institutions should be confirmed directly with those organizations rather than through links or contact details supplied solely by the site. The official support and contact channels should also be validated independently, and any regulatory requirement relevant to the proposed transaction should be checked with the applicable authority.

EVIDENCE

- The homepage provides membership-affiliation and event-registration calls to action, creating potential payment and personal-data interaction points.
- The site contains two forms classified as a membership application and newsletter subscription; no sensitive form was detected.
- The available page analysis found no external form destination, hidden form, password form, or wallet-drainer behavior.
- The site's stated business model is based on annual membership fees, event ticketing or sponsorship, training, representation, and directory services.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The website's apparent non-profit association presentation and technically stable operation are outweighed by confirmed external threat detections and blacklist status. Its organizational identity should therefore be regarded as unverified rather than established for security or transaction purposes.

Infrastructure Integrity

The site is served through Cloudflare's CDN and WAF, with all observed addresses belonging to Cloudflare edge infrastructure and no origin server address observable in the assessment. This provides a meaningful layer of traffic filtering and origin shielding, but it is only a mitigating infrastructure characteristic and does not establish site legitimacy.

Closing Assessment

The appropriate immediate posture is passive viewing only; credentials, personal information, membership payments, and event payments should not be submitted unless the organization and transaction recipient have been independently authenticated through trusted channels.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of adiem.mx.

- The request stayed on adiem.mx. It was not redirected to another domain. [CLEAR](#)
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2026-09-04. [NOTED](#)
- The earliest public archive of this site is from 2019-05-29. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about adiem.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
