

Is adsbexchange.com legit? TrustSniffer's high-trust assessment: 100/100

adsbexchange.com

Verdict

100

OUT OF 100

HIGH TRUST

adsbexchange.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 75%.

What this site appears to be

ADS-B Exchange is an independent global flight-tracking network offering real-time and historical aircraft visibility, community receiver participation, developer access, and subscription data products for enterprise customers.

Evidence status and limitations

Evidence completeness: UNKNOWN

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is ADS-B Exchange, an independent global flight-tracking network presenting real-time and historical aircraft visibility, community receiver participation, developer access, and subscription-based aviation data products for enterprise customers.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed blacklist findings were observed. The site presents a coherent aviation-data service with community, mapping, API, and enterprise-data sections; its long-running historical continuity, clean external reputation, and absence of suspicious page behavior support an established identity rather than a deceptive one.

- The homepage identifies flight tracking, aircraft data, receiver participation, developer access, and enterprise data products.
- The domain was registered in 2015 and is approximately 10.82 years old.
- The archive contains 4,150 snapshots across 12 tracked years, from 2015 through 2026.
- External reputation checks recorded zero malicious or suspicious detections and no blacklist hit.

Regulatory Verification Notes

The site's content supports a legitimate corporate/B2B aviation-data model built around subscriptions, developer access, and community infrastructure. The supplied pages do not present a regulated-financial license or license number; this is a limited disclosure point for counterparties that require formal authorization, not evidence of fraud. Registration privacy through Domains By Proxy is an administrative detail rather than an identity contradiction.

- The site navigation exposes Company Overview, Support, Contact Us, API Documentation, streaming documentation, and case studies.
- Registered through GoDaddy.com, LLC.
- Served on AS13335 through Cloudflare, Inc.
- TLS certificate issued by WE1 with DV validation, valid through 2026-10-11.

What to Verify Next

Enterprise counterparties should confirm the contracting entity, subscription scope, data-use terms, and billing arrangements through the site's Company Overview, Support, and Contact Us channels. Where a procurement

process requires formal licensing or sector authorization, the applicable registry status should be confirmed directly for the intended use case.

- The homepage links to Company Overview, Support, Contact Us, and enterprise-oriented data-product documentation.
- The site provides API, streaming, S3, sample-data, and case-study materials that can be compared with the contracted service scope.

Summary Verdict

ADS-B Exchange presents as a legitimate, established, and trustworthy aviation-data platform with strong identity continuity, coherent commercial purpose, and clean security indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and all observed addresses were CDN edge servers rather than origin candidates. This reduces direct exposure of the origin infrastructure and is a mitigating security factor, not standalone proof of legitimacy.

- Three observed edge addresses were associated with Cloudflare; no likely origin IP was identified.
- CDN infrastructure was resolved through Cloudflare’s US-based network.

Closing Assessment

Normal account access, enterprise engagement, and standard platform use are appropriate, with ordinary procurement and account-security controls applied.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of adsbexchange.com.

- The request stayed on adsbexchange.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

- The registration is paid up to 2028-10-08. CLEAR
- The earliest public archive of this site is from 2015-10-22. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about adsbexchange.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
