Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

What appears to be a local veterinary-clinic website for Affordable Pet Care at Four Corners in Clermont, Florida, presenting wellness and vaccination services, appointment requests, clinic information, and access to an online pet-pharmacy partner; its apparent business model is fee-based veterinary care supplemented by pet-medication and food sales.

Scam/Impersonation Risk

A confirmed blacklist hit creates a material contradiction that outweighs the otherwise ordinary local-business presentation. The homepage describes a vaccine and minor medical clinic, provides a telephone number and physical address, lists wellness, puppy and kitten, nutrition, and senior-pet services, and contains no apparent financial solicitation, login form, or explicit impersonation indicator; however, those content signals do not resolve the external reputation finding. The site's identity remains unverified, so the apparent clinic identity should not be treated as independently proven. Abuse reports associated with the observed IP are specifically attributed to shared Cloudflare infrastructure and have zero confidence, so they are not treated as evidence against this website itself. The confirmed blacklist finding remains the decisive scam/impersonation concern.

EVIDENCE

- The homepage presents Affordable Pet Care at Four Corners as a Clermont veterinary clinic and states that it provides vaccinations and minor medical care but not emergency treatment.
- The homepage contains an appointment-request form and a telephone-call link, with no detected password or sensitive-data form.
- External reputation monitoring recorded a confirmed blacklist hit for the assessed domain; separate checks recorded one malicious and two suspicious detections.
- The observed IP has 14 abuse reports, but the reports are attributed to shared Cloudflare CDN infrastructure with confidence score 0 and whitelist status true.

Regulatory Verification Notes

The site presents a conventional veterinary-service model rather than a financial product, and the available content contains service descriptions, operating information, payment-options navigation, and an online pharmacy reference. Licensing and registration status are unclear from the analyzed site content; no licensing authority or license number is supplied in the available evidence. This is a regulatory-transparency gap requiring verification, not by itself proof of misconduct. The domain is registered through Network Solutions, LLC, while the site's transport security uses a known DV certificate; these are infrastructure and registration facts, not independent confirmation of the operating legal entity. No matching third-party broker record was identified, but that absence is contextual only and is not a licensing determination.

EVIDENCE

- The homepage identifies veterinary services including wellness and vaccinations, puppy and kitten care, nutrition, and senior pet care.
- The site content does not state a licensing authority or license number.
- The domain was registered on 2019-10-03 and has an age of 6.88 years; the registrar is Network Solutions, LLC.
- TLS is issued by WE1 at DV validation level and is valid through 2026-10-21.

What to Verify Next

Before any appointment, pharmacy purchase, or submission of personal information, independently confirm that the named clinic operates at the stated Clermont address and that its telephone contact is published through an unrelated local or professional source. Confirm the clinic's veterinary licensing and business registration with the relevant Florida authorities, and separately validate that the pharmacy destination is the intended partner. The blacklist result should also be resolved through an independent security or domain-reputation review before sensitive interaction proceeds.

EVIDENCE

- The homepage supplies a physical clinic address, telephone contact, operating-hours navigation, and appointment-request functionality suitable for independent cross-checking.
- The homepage identifies Vetcove Home Delivery as the online-store partner and provides a pharmacy link.
- The site's business model is described as in-person veterinary services and retail pharmacy sales rather than financial services.
- The assessed page has one form, no hidden forms, no wallet-connection activity, and no detected password-external form.

Summary Verdict

The website presents as a plausible local veterinary business, but the authoritative assessment remains **low trust** because a confirmed external blacklist contradiction materially affects sensitive-interaction risk. Apparent legitimacy is therefore insufficiently established for account, credential, personal-data, or payment activity.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF and resolves through the Cloudflare edge on AS13335; the observed address is an edge server and no origin candidate was identified. This provides meaningful exposure mitigation and hosting stability, but protective CDN infrastructure does not establish the legitimacy of the site operator or offset the external reputation contradiction.

Closing Assessment

Treat the site as read-only until the blacklist finding and the clinic's independent identity and licensing can be resolved; sensitive submissions, credentials, and financial transactions should not proceed beforehand.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- A large share of what the page loaded came from other domains.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_MODERATE
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC

Signals weighed against the site

- AbuseIPDB: 14 reports on hosting IP 162.159.134.42 (Cloudflare, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of affordablepetcareatfourcorners.com.

- The request stayed on affordablepetcareatfourcorners.com. It was not redirected to another domain.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about affordablepetcareatfourcorners.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
