Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2002.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Afterbuy.de is an established German cloud-based SaaS platform for online merchants, presenting centralized marketplace, order, inventory, accounting, CRM, shipping, and ecommerce-integration management through subscription plans, partner integrations, customer support, and a 30-day trial.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent B2B software identity, with no detected brand impersonation, phishing behavior, hidden forms, wallet activity, or sensitive-form exfiltration. External reputation checks found no malicious or suspicious detections, and the site's established public presence supports the conclusion that normal interaction is appropriate.

- The homepage identifies a SaaS product landing page with no login form, hidden form, or sensitive-data collection mechanism.
- Behavioral testing recorded zero wallet-connect, wallet-drainer, clipboard-hijacking, or suspicious inline-script events.
- External reputation assessment recorded 0 malicious and 0 suspicious detections, with no confirmed threat hit.

Regulatory Verification Notes

Afterbuy presents a conventional commercial software model rather than a financial service. The homepage describes subscription software, marketplace integrations, support, and company resources, and identifies the broader ECOMMERCE ONE affiliation. No financial-regulatory license claim is supplied; this is a transparency point for ordinary vendor due diligence, not evidence of fraud. The supplied third-party broker check returned no match.

- The homepage describes multichannel ecommerce, ERP, CRM, inventory, accounting, shipping, pricing, and customer-support functions.
- The homepage states “Ein Unternehmen der ECOMMERCE ONE” and displays a German telephone contact.
- The domain is recorded as registered in 2002 and approximately 23.8795 years old.
- The archive contains 4,126 snapshots spanning 2002–2026, with 25 years tracked.

What to Verify Next

Procurement teams should match the contracting entity and applicable legal terms to independent corporate records, confirm any licensing requirements only if the intended service scope makes them relevant, and

validate support channels through independently sourced contact details.

- The site provides legal pages and company resources alongside its commercial product information.
- The homepage provides pricing, trial, support, and partner-integration information suitable for standard vendor onboarding.

Summary Verdict

The site has a legitimate, established, and trustworthy posture with strong identity continuity and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is hosted on AS48635 operated by CLDIN-NL – Your Hosting B.V. in the Netherlands, with two likely origin addresses and no detected CDN/WAF layer. Its transport encryption uses a DV certificate issued by YR1, valid through 2026-10-11 22:48:41 UTC; the hosting arrangement is technically ordinary and does not undermine the legitimacy assessment.

Closing Assessment

Prospective users may proceed with normal account creation, login, and standard platform use, subject to routine organizational procurement and contractual checks.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of afterbuy.de.

- The request stayed on afterbuy.de. It was not redirected to another domain. CLEAR
- DNS for this domain is served by ec1.de, across 2 name servers. NOTED
- The earliest public archive of this site is from 2002-09-14. CLEAR
- It is hosted on CLDIN-NL, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about afterbuy.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
