

Is agendaoffroad.com.br legit? TrustSniffer's high-trust assessment: 100/100

agendaoffroad.com.br

Verdict

100

OUT OF 100

HIGH TRUST

agendaoffroad.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Portuguese-language homepage for Agenda Off Road, a Brazilian platform that publishes off-road and outdoor sporting events and offers organizers online registrations, payment options, participant management, and reporting. The page includes event listings, newsletter signup, customer-support contacts, an FAQ, privacy policy, terms of use, and app promotion.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Agenda Off Road is a Brazilian event marketplace that helps visitors discover and register for off-road and outdoor sporting events while providing organizers with event publication, payment, participant-management, and reporting capabilities.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or malicious reputation findings were observed. The homepage presents a coherent operating model supported by detailed event listings across trail riding, mountain biking, road running, 4x4, motocross, enduro, and velcross categories. Its long historical footprint and consistent event-marketplace presentation support the assessment that this is an established, legitimate service rather than a recently created imitation.

- The homepage lists named events with dates, locations, categories, registration status, and enrolment calls to action.
- The homepage analysis found no hidden forms, untrusted form destinations, cloaking, suspicious inline scripts, clipboard manipulation, or cryptocurrency-wallet activity.
- The domain archive contains 168 snapshots spanning 2010–2026, representing 17 years of tracked history, with no suspicious repurposing or semantic drift identified.
- External reputation checks recorded no malicious or suspicious detections, no reported abuse, and no confirmed threat-list matches.

Regulatory Verification Notes

The site functions as an event-services marketplace rather than a financial, investment, brokerage, or cryptocurrency platform, and no regulated-product or licensing claim was identified. The homepage provides links to privacy and terms-of-use materials, an FAQ, support resources, and contact facilities, which are appropriate governance elements for its stated activities. Because the supplied page evidence does not contain the text of those legal pages, the contracting entity, payment responsibilities, refund rules, and data-handling terms cannot be assessed in detail from this record; this is a limited disclosure-review scope, not evidence of illegitimacy.

- The homepage links visitors to a privacy policy, terms of use, FAQ, contact resources, and customer support.
- The homepage describes organizer services involving online registration, payment options, participant administration, and reporting.

- Registration records identify CLEBER FELTRACO as the owner; the recorded registration is dated 20 October 2015, approximately 10.8 years old, with expiry on 20 October 2028.
- No broker-database match, investment offering, token, or regulated financial-service claim was identified.

What to Verify Next

For material event purchases or organizer engagements, the relevant event page should be checked for the organizer's identity, cancellation terms, refund allocation, and fulfilment responsibilities. Prospective organizers should review the operative terms and privacy policy to confirm fees, payment settlement, participant-data handling, dispute procedures, and the division of obligations between the platform and event organizer. Official contact channels may also be confirmed independently before entering a substantial commercial arrangement.

- The homepage promotes open registrations for multiple independently named events in different Brazilian locations.
- The assessed homepage does not display specific service pricing or transaction-fee details.
- The only form identified on the homepage is a newsletter email-subscription form and is not classified as sensitive.
- Cookie consent and browser-notification prompts are present as ordinary user-interface functions.

Summary Verdict

Agenda Off Road is a legitimate, established, and trustworthy event-services website. Its coherent commercial purpose, sustained provenance, substantive operating content, and clean security reputation converge without contradictory identity or threat signals. Normal interaction, including account login, event registration, and standard platform use, is appropriate.

Infrastructure Integrity

The site uses Cloudflare's mainstream CDN and WAF architecture, with all observed addresses belonging to protected edge infrastructure rather than an exposed origin server. This reduces direct origin exposure and provides conventional availability and traffic-filtering protections, although infrastructure protection is a mitigating security control rather than independent proof of business legitimacy.

- The hosting infrastructure is served from AS13335 (Cloudflare, Inc., US).
- Six observed addresses were Cloudflare edge addresses; no origin candidate was exposed during the assessment.
- The site's transport encryption uses a valid WE1-issued domain-validated TLS certificate, valid until 29 September 2026.

Closing Assessment

Prospective users may engage with the platform normally, applying ordinary transaction diligence to the terms and organizer details of the specific event being purchased or managed.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of agendaoffroad.com.br.

- The request stayed on agendaoffroad.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-10-20. CLEAR
- The earliest public archive of this site is from 2010-03-15. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about agendaoffroad.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
