

Is agentex.com.ar safe? TrustSniffer's low-trust assessment: 40/100

agentex.com.ar

Verdict

40

OUT OF 100

LOW TRUST

agentex.com.ar is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Corporate website for Agentex S.R.L., a long-established Argentine family business that represents and sells textile machinery and offers reconditioning, import/export and event participation. Contact information and company overview are present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What agentex.com.ar served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Public web-archive history exists since 2001.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a corporate B2B presence for Agentex S.R.L., presenting textile machinery sales, equipment representation, reconditioning, import/export services, spare parts, accessories, and industry-event participation to prospective commercial customers.

Scam/Impersonation Risk

Contradictory external risk signals are present despite the site's coherent corporate presentation.

External reputation checks recorded two malicious detections and one suspicious detection, alongside confirmed blacklist status from multiple external sources. This conflict is material because the homepage presents Agentex S.R.L. as an established textile-machinery business, while the site itself shows no login form, sensitive submission form, wallet connection, or other obvious abuse mechanism. The available evidence does not establish phishing or brand impersonation, but the external detections warrant treating credential submission, payment activity, and other sensitive interactions as elevated-risk until independently resolved.

EVIDENCE

- The homepage identifies Agentex S.R.L. as a textile-machinery representative and reseller, with stated experience exceeding 50 years and services covering machinery sales, reconditioning, and import/export.
- External reputation evaluation recorded `vt\_malicious: 2`, `vt\_suspicious: 1`, and `external\_blacklist: true`.
- Page analysis found no login form, hidden sensitive form, password-external form, wallet connection, or wallet-drainer behavior.
- The site's observed behavior completed 2 of 2 runs successfully, with no cloaking, suspicious inline scripts, clipboard hijacking, or hidden forms detected.

Regulatory Verification Notes

The site presents Agentex S.R.L. as a family-owned Argentine company and provides company-overview and contact content, but the operator's real-world identity remains unverified by the available evidence. No regulatory license or registration number is claimed on the reviewed pages; for a machinery-trading business this is a disclosure and applicability question rather than standalone evidence of fraud. Ownership and governance transparency therefore require independent confirmation. The site's transport security and hosting telemetry are technically valid, but neither establishes legal identity or regulatory standing.

EVIDENCE

- The homepage states that Agentex S.R.L. represents more than 10 firms and serves customers internationally.
- The observed service resolves through AS16814, identified as NSS S.A., AR.
- The TLS certificate is issued by YR1 using Domain Validation (DV), with validity through `2026-10-28T12:05:34+00:00`.
- The site has no stated license authority or license number in the reviewed business and contact content.

What to Verify Next

Before any sensitive engagement, independently confirm that the business name, physical presence, representatives, and payment instructions correspond to a legally established counterparty. Where the proposed transaction or activity requires authorization, confirm the applicable Argentine registration or sector licensing directly with the relevant official registry. Contact details should be validated through an independently sourced telephone number or other offline channel, and any payment should use contractual documentation and payment protections appropriate to a commercial equipment transaction.

EVIDENCE

- The homepage supplies the company name, business description, represented-firm claims, and contact pathway that can be checked against independent records.
- The site describes equipment sales, reconditioning, and import/export services, creating a need to validate the contracting entity and transaction documentation before payment.
- The reviewed pages contain no license authority or registration number to use as a direct regulatory reference.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interactions**. The site's professional, internally consistent presentation does not outweigh the confirmed external reputation contradictions, and the available evidence does not independently verify the operating entity.

Infrastructure Integrity

The site is protected by Incapsula CDN/WAF infrastructure, with observed edge servers on AS19551 and one potential origin candidate. This provides a mitigating layer against some forms of direct exposure, but protective infrastructure is not proof of legitimacy; the service path also involves the identified NSS S.A. hosting environment.

Closing Assessment

Restrict engagement to passive review until the counterparty and transaction details have been independently confirmed; credentials, financial information, and payment authorization should not be provided while the external reputation conflict remains unresolved.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of agentex.com.ar.

- The request stayed on agentex.com.ar. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2001-05-04. CLEAR
- It is hosted on AS16814, from a server in AR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about agentex.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
