Full analysis

Overview

Agorastore is a French online auction marketplace for used vehicles, equipment, real estate, and other assets supplied by public bodies, associations, and businesses, presenting active auctions, seller services, buyer resources, legal policies, and circular-economy positioning.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent marketplace model, identifiable auction categories, seller and buyer services, legal links, and no detected phishing, brand-impersonation, or malicious-content indicators. Its purpose and operating mechanics are consistent across the supplied site content.

- The homepage identifies Agorastore as an online auction platform for vehicles, equipment, and other goods.
- The homepage presents active categories including transport, construction equipment, agriculture, furniture, industrial equipment, and real estate auctions.
- The assessed site showed no phishing indicators, brand-impersonation suspicion, or detected red-flag content.

Regulatory Verification Notes

Agorastore presents legal policies, buyer resources, seller services, and auction information consistent with an established commercial marketplace. The supplied evidence does not establish that the platform is a regulated financial-services entity or disclose a financial-services license; this is a limited transparency point for transaction-specific verification, not evidence of deception. No adverse broker-reputation match was identified.

- The homepage links to legal policies and explains seller and buyer services.
- The domain was registered on 2008-11-20 and is approximately 17.71 years old; registrar: NORDNET.
- Hosted on AS13335 (Cloudflare, Inc., US); TLS certificate issued by WE1 at DV validation level, valid to 2026-09-05.
- The supplied third-party broker dataset returned no match.

What to Verify Next

Before a material purchase, confirm the applicable auction terms, buyer fees, payment process, delivery arrangements, and the authority of the named seller on the individual listing. For regulated or cross-border transactions, confirm any applicable registration requirements with the relevant official registry and independently confirm official contact channels.

- Auction listings are the relevant source for item, seller, fee, and transaction conditions.
- The homepage provides buyer resources and legal-policy links.
- Seller services are presented as a distinct part of the marketplace model.

Summary Verdict

The site presents as a legitimate, established, and trustworthy online auction marketplace with a coherent business purpose and no observed scam or impersonation contradiction. Normal interaction, including account login and standard marketplace use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a meaningful mitigating layer, with observed traffic served through Cloudflare edge infrastructure rather than a directly exposed origin. This supports resilience and reduces direct origin exposure, but remains a protective control rather than proof of legitimacy.

Closing Assessment

Standard account and auction activity is appropriate, subject to ordinary transaction-level checks of listing terms, seller authority, and payment conditions.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about agorastore.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
