The page as captured

<https://aidlifempowerment.com/>

What aidlifempowerment.com served when TrustSniffer captured it on 2026-09-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Aid Life Empowerment presents itself as a member-focused financial empowerment organization offering financial products and services intended to support entrepreneurship, member development, loans, pooled investments, and collective economic opportunities.

Scam/Impersonation Risk

The site presents a confirmed contradiction through external threat intelligence: it is blacklisted, with multiple malicious and suspicious detections recorded across evaluated security sources. This materially outweighs the otherwise ordinary corporate presentation and the absence of observed login forms, wallet-connect behavior, or hidden forms. The available evidence does not establish that the site is impersonating a named brand or that it is conducting phishing through the captured pages, but the confirmed blacklist status supports a clearly cautionary posture for credentials, payments, and other sensitive interactions.

EVIDENCE

- External reputation telemetry records 15 malicious and 3 suspicious detections among 23 evaluated results for the domain.
- The domain is recorded as blacklisted by two independent external sources.
- The captured homepage contains no login form, sensitive form, hidden form, or wallet-connection behavior.

Regulatory Verification Notes

The About and homepage content describes Aid Life Empowerment as a member-based non-bank financial group and refers to regulation by the Lagos State Government, but the captured legal and contact content does not provide verifiable licensing details, a registration number, a clearly identified regulated entity, or sufficiently complete contact information. The site describes loans, pooled investments, credit opportunities, and joint investments, yet does not clearly define the products, applicable terms, custody arrangements, or responsible legal entity. Its identity remains unverified; the registration record names Precious Obi while the organizational field is privacy-redacted, which is an administrative limitation rather than proof of misconduct. A third-party broker-reputation dataset produced no matching record, but that absence is not a licensing or legitimacy determination.

EVIDENCE

- The homepage and About pages state a Lagos State Government regulatory claim without a verifiable license number or registry reference.
- The domain was registered on 2023-04-16 and is approximately 3.44 years old; the registrar is Upperlink Limited.
- The site is hosted on AS52148, operated by ENIXLTD – Enix Ltd, GB.
- The transport certificate is DV, issued by YR1, and valid until 2026-11-18.

What to Verify Next

Before any financial commitment or disclosure of credentials, an independent party should confirm the claimed regulatory status directly with the relevant Lagos State registry and establish the precise legal entity responsible for member funds, lending, and investment activity. The organization's physical address, governing documents, complaints process, product terms, withdrawal conditions, and payment destination should also be validated through independently sourced contact channels rather than relying solely on information supplied by the website.

EVIDENCE

- The site provides About Us, Our Team, Complaint, Whistle Blowing, FAQ, Help Center, and Contact pages for follow-up review.
- The captured homepage identifies financial services and member support objectives but does not present a clearly defined product structure or independently verifiable regulatory particulars.
- The captured page was successfully served over HTTPS and displayed stable corporate-site content, but transport security does not validate the organization or its financial claims.

Summary Verdict

The overall posture is **critical trust risk** with a high risk of sensitive interaction. The site’s corporate presentation is not sufficient to offset the confirmed external threat detections and unresolved identity and regulatory questions. Apparent legitimacy should therefore not be treated as established.

Infrastructure Integrity

The site resolves directly to a single likely origin hosted by ENIXLTD – Enix Ltd in the United Kingdom, with no CDN or WAF identified in the supplied infrastructure evidence. This provides a technically resolved hosting path but no protective intermediary layer that would materially mitigate the reputation concerns described above.

Closing Assessment

Sensitive interactions, including credential submission, payment, investment, lending, or transfer of member funds, should be withheld unless the organization and its regulatory status are independently validated through authoritative channels.

Written analysis generated 2026-09-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aidlifempowerment.com.

- The request stayed on aidlifempowerment.com. It was not redirected to another domain. CLEAR
- Registration is published under Upperlink Limited. CLEAR
- DNS for this domain is served by uplserver5.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-16. NOTED
- The earliest public archive of this site is from 2023-07-23. CLEAR
- It is hosted on ENIXLTD, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aidlifempowerment.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
