- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Aikido Club Montbéliard is an informational local sports-club website presenting aikido classes, schedules for two Montbéliard dojos, club information, contact channels, and membership-related enquiries for community participation rather than online financial or commercial transactions.

Scam/Impersonation Risk

No contradictions were observed. The site does not present phishing, impersonation, investment, cryptocurrency, payment, or high-pressure solicitation features; its only identified form is a general contact form without password or sensitive-data fields. The content is consistent with a local aikido club and does not show indicators of an active scam pattern. The available evidence supports a non-scam assessment, while the real-world operator identity is not independently verified.

EVIDENCE

- The homepage presents the Aïkido Club de Montbéliard, class schedules, two local dojo locations, and community-oriented club information.
- The contact page contains one general enquiry form; technical inspection found no login form, hidden sensitive form, wallet connection, clipboard hijacking, or suspicious inline scripts.
- The domain was first registered on 2024-08-28 and is recorded as approximately 1.98 years old.
- Archive records show 46 snapshots spanning 2018-03-24 to 2026-02-11, covering 9 years of tracked history without detected repurposing or semantic drift.

Regulatory Verification Notes

The website's apparent activity is local sports-club membership and participation, not a regulated financial service. It states that the club has operated since 1992, is affiliated with the FFAAA, and participates in a federation described as approved by the French state; these are on-site representations rather than independently verified legal or regulatory findings. Formal operator identity and governance disclosures are limited, so the affiliation and the entity responsible for the website should be confirmed independently. The site's transport and hosting arrangements are technically coherent with a functioning public website, but they do not establish legal ownership or regulatory status.

EVIDENCE

- The homepage states that the club has existed since 1992 and is affiliated with the Fédération Française d'Aïkido, d'Aïkibudo et Affinitaires.
- Domain registration identifies Hostinger operations UAB as registrar, with expiration recorded as 2027-08-28.
- Hosting is provided through AS47583, AS-HOSTINGER – Hostinger International Limited, CY; the resolved hosting country is UA.
- The site uses a DV TLS certificate issued by WR1, valid until 2026-09-20T02:31:11+00:00.

What to Verify Next

Before any sensitive commitment, an independent check should confirm that the club's stated federation affiliation and local presence correspond to an active organisation. Membership terms, fees, cancellation arrangements, and any payment instructions should be obtained directly from the club and checked against independently confirmed contact details. Any change from ordinary informational enquiries to payment collection or requests for identity documents should trigger a fresh review of the responsible entity and transaction safeguards.

EVIDENCE

- The homepage provides two dojo addresses in Montbéliard and identifies the scheduled Tuesday and Thursday training sessions.
- The contact page provides named telephone contacts and a general enquiry workflow rather than an account or payment portal.
- The site does not display a formal registration number, licensing number, or detailed legal-entity disclosure in the supplied content.

Summary Verdict

The website has a **moderate-trust, non-contradictory posture** and appears consistent with a legitimate local sports-club presence. Its apparent legitimacy is supported by coherent page content and benign interaction behaviour, but the available evidence does not independently prove the operator’s real-world identity. Verification is therefore appropriate for sensitive or high-value engagement.

Infrastructure Integrity

The site resolves through Hostinger infrastructure on AS47583, with no CDN edge IPs or detected CDN/WAF vendor in the supplied network assessment; four likely origin addresses were identified. This provides a straightforward hosting posture but offers limited infrastructure-based mitigation beyond the site’s functioning transport security.

Closing Assessment

Ordinary informational browsing and club enquiries are proportionate, while independent confirmation of organisational details and transaction terms should precede any sensitive or high-value commitment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aikidoclubmontbeliard.fr.

- The request stayed on aikidoclubmontbeliard.fr. It was not redirected to another domain. CLEAR
- Registration is published under Hostinger operations UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-28. NOTED
- The earliest public archive of this site is from 2018-03-24. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aikidoclubmontbeliard.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
