

Is aileir.com legit? TrustSniffer's high-trust assessment: 100/100

aileir.com

Verdict

100

OUT OF 100

HIGH TRUST

aileir.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Aileir Limited marketing page for strategic IT and AI consulting (Brightminds offering). Describes consulting approach, team/project alignment metaphor, contact email and social links. No transactional flows or investment products visible.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What ailtair.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Ailteir.com is a corporate website for Ailteir Limited, presenting strategic IT consulting and the Brightminds AI-driven insights offering. Its visitor-facing purpose is to describe consulting capabilities, project and team-alignment methods, and client engagement through professional-services enquiries rather than on-site transactions or investment activity.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent corporate-consulting purpose, with no login workflow, credential-collection form, financial solicitation, wallet interaction, or detected brand-impersonation pattern. Two abuse reports associated with the hosting IP are specifically attributed to shared provider infrastructure with zero confidence against this site, so they do not constitute evidence of site-level abuse.

EVIDENCE

- The homepage contains no login form, hidden form, password submission, wallet connection, or external posting behavior.
- The domain was registered on 2010-07-07 and is approximately 16.13 years old.
- Historical coverage records first observation on 2011-02-02 and last observation on 2026-04-22, spanning 16 years.
- Hosting IP 64.29.151.221 has 2 abuse reports with confidence score 0; the reports are attributed to shared infrastructure operated by Internet Names For Business Inc.

Regulatory Verification Notes

The reviewed pages identify Ailteir Limited and describe ordinary strategic IT and AI consulting services. No licensing claim or registration number is presented; for a consulting business, this is a disclosure and engagement-verification point rather than evidence of deception or regulated financial activity. The registration record names Donald Horsburgh, but the available evidence does not independently verify that person as the operating entity behind the website. Registration is through Hostopia Canada Corp, and the available external broker context contains no matching record.

EVIDENCE

- The site's title and homepage identify "Ailteir Limited | Strategic IT & AI Consulting."
- The domain registrar is Hostopia Canada Corp.
- The site is hosted on AS30447 operated by INFB2-AS - Internet Names For Business Inc., CA.
- The transport certificate is a DV certificate issued by Sectigo Public Server Authentication CA DV R36, valid to 2026-10-17.

What to Verify Next

Before a commercial engagement, independently confirm the contracting entity, obtain written statements of work and payment terms, and validate the official contact and social channels through an independent route. Where a proposed engagement would involve a regulated service, confirm the applicable authorization directly with the relevant registry before proceeding.

EVIDENCE

- The homepage provides the stated business name, service description, and professional-services contact route needed for independent entity confirmation.
- The site links to LinkedIn and Twitter, providing secondary channels for comparing corporate identity and current contact details.
- The reviewed page presents no on-site payment or investment flow, so any payment or credential request should be assessed against the separately agreed engagement documentation.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and a high-trust, low-risk posture. The operating identity is likely rather than independently verified, so the website's legitimacy should not

be treated as conclusive proof of the real-world operator.

Infrastructure Integrity

The site resolves through hosting operated by INFB2-AS - Internet Names For Business Inc. in Canada, with no CDN or WAF layer detected. This conventional hosting arrangement provides limited infrastructure-based mitigation, but no infrastructure signal was found that contradicts the site’s overall trust assessment.

Closing Assessment

Normal browsing and business enquiry are proportionate uses; credential or payment interactions should follow ordinary independent checks of merchant identity, contractual terms, and available payment protection.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 2 reports on hosting IP 64.29.151.221 (Internet Names For Business Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ailteir.com.

- The request stayed on ailteir.com. It was not redirected to another domain. CLEAR
- Registration is published under Hostopia Canada Corp. CLEAR
- DNS for this domain is served by aplus.net, across 3 name servers. NOTED
- The registration is paid up to 2027-07-07. NOTED
- The earliest public archive of this site is from 2011-02-02. CLEAR
- It is hosted on INFB2-AS, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ailteir.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
