Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

AIM Consultancy is presented as a New Delhi-based manpower recruitment and visa-services agency offering overseas placement, visa processing, document attestation, and Umrah tour assistance, supported by published contact details, an office address, service descriptions, and recruitment information.

Scam/Impersonation Risk

No contradictions were observed. The site's stated commercial purpose is coherent across its homepage, company-profile material, services, recruitment, and contact pages, and the observed behavior does not indicate phishing, credential harvesting, wallet abuse, cloaking, or other high-risk abuse patterns. The published Ministry of External Affairs approval claim and registration reference support an apparently legitimate operating narrative, although the connection between the website and the real-world operator remains independently unverified. Available external reputation checks found no malicious, phishing, or blacklist indicators, and no adverse broker-reputation match was identified.

EVIDENCE

- The homepage and company-profile content identify AIM Consultancy as a manpower recruitment and services organization and state that it was established in 2008.
- The homepage presents the Ministry of External Affairs approval claim and registration reference “B-0831/DEL/PER/1000+/5/9244/2016.”
- The contact and callback pages expose one contact form without a password or other sensitive-data field; observed browser activity recorded 0 external POST requests, 0 wallet-connect runs, 0 wallet-sensitive runs, and 0 cloaking detections.
- Domain registration continuity: registered 2012 (~14.42 years old); the registrar is Endurance International Group India Private Limited.

Regulatory Verification Notes

The website presents a specific government-approval and registration claim, but that claim should be treated as an on-page representation rather than independent proof of current authorization. The available material does not establish a verified regulatory status or independently confirm the legal entity operating the domain. This is a verification and disclosure matter, not an observed scam contradiction. The domain's long registration continuity, sustained archival presence, valid transport encryption, and clean available reputation materially support the assessment that the website is established and apparently legitimate.

EVIDENCE

- Historical web records contain 579 snapshots spanning 2018–2026, with 9 years tracked.
- The site is served from AS47583 (AS-HOSTINGER – Hostinger International Limited, CY).
- The site's TLS certificate is issued by YE1, uses Domain Validation (DV), and is valid to 2026-09-26T20:41:36+00:00.
- The company-profile and contact pages provide the business name, New Delhi office address, telephone numbers, service descriptions, and organizational material.

What to Verify Next

Before credential or payment interactions, independently confirm the government registration reference with the relevant Indian authority and establish that the entity, office, and published contact channels correspond to the same operating business. For any recruitment, visa, attestation, or tour engagement, obtain written service terms, itemized fees, refund conditions, and documentary evidence for the specific employer, placement, or travel arrangement. Payment should use a method providing clear dispute and recovery protections.

EVIDENCE

- The company-profile page supplies a registration reference suitable for an independent authority check.
- The contact page supplies an office address and multiple telephone numbers suitable for an offline or independently sourced confirmation.
- The recruitment and current-jobs pages provide the operational details that should be matched to the specific placement before funds or identity documents are provided.
- The contact form is identified as a callback request rather than a login or password-collection mechanism.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. No scam, phishing, impersonation, or identity-conflict indicators were observed, but the real-world operator identity and regulatory standing are not independently verified.

Infrastructure Integrity

The site is not shown behind a detected CDN edge and resolves to four likely origin addresses, with no edge IPs identified. This provides less intermediary shielding than a conventional CDN/WAF deployment, but the observed infrastructure presents no confirmed abuse pattern and does not contradict the broader trust assessment.

EVIDENCE

- DNS resolution identified 4 unique IP addresses, including 0 edge IPs and 4 likely origin IPs.
- No CDN was detected in the infrastructure resolution.
- The resolved hosting country was UA, while the hosting registry was RIPE NCC.

Closing Assessment

Routine browsing is proportionate to the available evidence; before submitting credentials, identity documents, or payment, the prospective customer should complete the independent entity, authorization, contractual, and payment-protection checks described above.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aimconsultancy.in.

- The request stayed on aimconsultancy.in. It was not redirected to another domain. CLEAR
- Registration is published under Endurance International Group India Private Limited. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2035-03-22. CLEAR
- The earliest public archive of this site is from 2018-01-17. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aimconsultancy.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
