What airsoftamericana.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a Portuguese-language WooCommerce storefront branded “Airsoft Ameriana,” presenting airsoft pistols, rifles, snipers, scopes, parts, protective equipment, clothing, ammunition, and related accessories for direct online retail sale.

Scam/Impersonation Risk

The site’s ordinary retail presentation is not sufficient to offset the **confirmed blacklist signal** and external malicious detections. Security telemetry recorded malicious classifications from multiple external sources, including two Tier-1 security vendors, while the site’s own observed behavior showed no login form, hidden sensitive form, wallet connection, cloaking, or external submission activity. No separate brand-impersonation or conflicting legal-identity signal was observed; however, the blacklist and malicious classifications constitute a material contradiction requiring a security-forward posture. The domain appears established rather than newly created, but age does not neutralize the adverse reputation evidence.

EVIDENCE

- External reputation telemetry recorded 11 malicious and 2 suspicious detections; the domain was also recorded on external blacklist sources.
- The homepage presents 313 WooCommerce product results, including airsoft rifles, pistols, scopes, and accessories, with prices in Brazilian reais and no detected login form.
- The registration record shows creation on 2017-02-04 and an age of 9.55 years.
- Historical coverage is recorded from 2017-09-05T22:51:59Z through 2025-05-01T10:21:52Z, with 9 years tracked; no suspicious repurposing or semantic category change was identified.

Regulatory Verification Notes

The website presents itself as a retail merchant and provides customer-contact and physical-address information, but the available evidence does not independently verify the operator's identity. The site makes no license claim and provides no license number or licensing authority, leaving regulatory standing and any requirements associated with the sale of airsoft equipment unresolved. This is a verification gap rather than, by itself, proof of fraudulent conduct. The registration record names Welyngton Codogno, but that record does not establish that the named person is the operating merchant.

EVIDENCE

- The homepage and store pages identify the business as "Airsoft Ameriana" and display standard product listings through WooCommerce.
- The contact content provides a telephone contact and physical address for the merchant.
- The registration record names Welyngton Codogno as the recorded owner.
- The site's hosting resolves through AS31898, ORACLE-BMC-31898 – Oracle Corporation, US; its TLS certificate is DV, issued by YR2, and valid to 2026-10-24T12:07:51+00:00.

What to Verify Next

Before any sensitive interaction, an independent party should confirm the merchant's legal registration, operating address, and authority to sell the relevant equipment through applicable Brazilian registries or official business records. The seller's payment, delivery, refund, and warranty terms should be checked for consistency with the independently confirmed merchant identity, and any transaction should use a payment method offering meaningful buyer protection. Pending resolution of the adverse external detections and identity uncertainty, access should remain read-only and credentials or financial information should not be submitted.

EVIDENCE

- The store pages provide the merchant identity and contact route that should be matched against independent business records.
- Product and checkout pages should be reviewed for seller-of-record, delivery, refund, and warranty terms before a transaction.
- The observed page behavior included one search/contact form and no detected password-external form, but this does not validate the payment or merchant relationship.

Summary Verdict

The overall posture is **critical trust risk**, with sensitive interaction risk driven by adverse external reputation evidence. The website appears to operate as a conventional retail storefront, but its real-world operator remains unverified and the positive presentation does not overcome the confirmed contradiction.

Infrastructure Integrity

The site has limited protective layering: no CDN was identified, and resolution returned a single IP without separate edge or origin candidates. Oracle hosting and valid transport encryption provide technical stability, but they are mitigating infrastructure characteristics only and do not establish legitimacy.

Closing Assessment

Sensitive interaction should be suspended until the adverse reputation findings and the merchant’s real-world identity and authority have been independently resolved.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of airsoftamericana.com.br.

- The request stayed on airsoftamericana.com.br. It was not redirected to another domain. [CLEAR](#)

- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2027-02-04. NOTED
- The earliest public archive of this site is from 2017-09-05. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about airsoftamericana.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
