

Is airwe.in a scam? TrustSniffer's high-risk assessment: 0/100

airwe.in

Verdict

0

OUT OF 100

CRITICAL RISK

airwe.in shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Informational site for AIRWE (Akal Institute of Rural Women Empowerment) describing free residential education programs, contact details, admissions, success stories, and affiliation with Kalgidhar Trust and Eternal University. Includes a contact form and donation/volunteer links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2023.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is an informational and charitable education portal for the Akal Institute of Rural Women Empowerment (AIRWE), presenting free residential education, admissions, academic programmes, success stories, volunteering, and donation opportunities under the stated direction of the Kalgidhar Trust.

Scam/Impersonation Risk

The site presents a coherent education-and-charity narrative, and the reviewed pages contain no login form, credential-harvesting form, or obvious impersonation indicators. However, this benign presentation is outweighed by a confirmed external blacklist signal and strong malicious detections associated with the domain. The result is a material contradiction between the site's apparent institutional purpose and its external threat reputation; the domain should therefore be treated as unsuitable for sensitive interaction until the detections are independently resolved. No identity inconsistency between multiple legal entities was observed, and no site-level phishing mechanism was identified. Evidence:

- The homepage and programme pages describe AIRWE as a free residential education programme operated by the Kalgidhar Trust, with admissions, support, volunteer, and donation pathways.
- External reputation telemetry recorded 16 malicious detections and 1 suspicious detection among 22 evaluated results; the domain was also reported as blacklisted by two sources.
- The domain was registered on 2015-11-20 and has an age of 10.76 years; archival telemetry records 0 snapshots, with coverage dates from 2023-11-01 through 2026-04-17 and 4 years tracked.

Regulatory Verification Notes

The site's stated charitable and educational model is internally coherent: the About and programme material names AIRWE, the Kalgidhar Trust, and an affiliation with Eternal University. Those on-page claims are not independently verified by the available evidence. The reviewed material does not present a licensing claim or license number, so the legal status of the educational activity, charitable operator, and donation process remains a verification matter rather than proof of wrongdoing. The domain's registration record names Akal Institute of Rural Women Empowerment (The Kalgidhar Trust Baru Sahib), while the registrar is GoDaddy.com, LLC. Transport security is present, but the certificate is domain-validated rather than an organisational identity validation. Evidence:

- The About, programme, admissions, and success-story pages identify AIRWE and describe its educational activities and stated institutional affiliation.
- The reviewed institutional pages contain no displayed license authority or license number.
- The domain registration record lists Akal Institute of Rural Women Empowerment (The Kalgidhar Trust Baru Sahib) and GoDaddy.com, LLC as registrar.
- TLS is issued by YE2 at DV validation level and is valid until 2026-10-02T11:48:51+00:00.

What to Verify Next

The named operator and institutional affiliation should be confirmed through independently sourced official records rather than relying solely on the website. Any donation beneficiary, payment destination, or admissions contact should be validated through an offline or independently published channel, and the relevant education or charitable registry should be checked for the programme and operating entity before sensitive interaction.

Evidence:

- The About and programme pages provide the institutional claims requiring independent corroboration.
- The admissions, Contact Us, and Donate pages create operational channels that should be validated before use.
- The programme descriptions provide the basis for checking the relevant education and charitable authorities.

Summary Verdict

The overall posture is **critical sensitive-interaction risk**. Although the website's content appears institutionally structured and charitable in nature, the confirmed external threat contradiction prevents the available evidence from supporting trust for login, credential submission, donation, or other financial activity.

Infrastructure Integrity

The site is hosted directly on Hostinger infrastructure without a detected CDN or edge-IP layer; this provides limited protective mitigation and leaves the resolved hosting arrangement as the relevant infrastructure context.

Evidence:

- Served from AS47583, AS-HOSTINGER — Hostinger International Limited, CY; resolved infrastructure is associated with 92.113.16.142 in UA.
- Infrastructure telemetry identified 4 unique IPs, 0 edge IPs, and 4 likely origin IP candidates.
- No CDN was detected.

Closing Assessment

Pending independent validation and resolution of the external threat detections, activity should be limited to passive viewing; credentials, authentication, donations, and sensitive or financial information should not be submitted.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, behaviour in a sandbox, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of airwe.in.

- The request stayed on airwe.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-20. NOTED
- The earliest public archive of this site is from 2023-11-01. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about airwe.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
