

Is aiwu5.com legit? TrustSniffer's high-trust assessment: 100/100

aiwu5.com

Verdict

100

OUT OF 100

HIGH TRUST

aiwu5.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automate analysis. Classification confidence 70%.

What this site appears to be

County-level women's federation website offering news, announcements, volunteer and welfare program information, legal resources, and links to related government and media sites. Contact phone and email present; appears informational and non-commercial.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What aiwu5.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an informational portal for a county-level women’s federation, presenting local news, public notices, women’s rights and legal resources, volunteer activities, child-welfare initiatives, education assistance, and related public-service information rather than an apparent commercial offering.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting legal-identity signals were observed. The homepage contains substantial public-service material, including federation news, official notices, legal guidance, volunteer programs, and child-support initiatives; its structure does not present login forms, payment requests, cryptocurrency functions, or other apparent credential-harvesting mechanisms. The page title “be365官方” does not closely describe the displayed public-service content and is a minor content-coherence anomaly, but the available evidence does not establish an impersonation or scam pattern.

EVIDENCE

- The homepage presents women's federation announcements, legal resources, volunteer information, child-welfare programs, and public notices; no red-flag items were identified.
- Browser behavior recorded no login form, hidden form, password submission, external password form, wallet connection, wallet-drainer activity, clipboard hijacking, or cloaking.
- The domain was registered on 2018-07-09 and is approximately 8.12 years old.
- Historical records contain 254 snapshots from 2021-11-25 through 2026-02-20, covering 6 years, with continuous historical continuity and no detected suspicious repurposing.

Regulatory Verification Notes

The site's apparent function is public information and community service, so no commercial licensing claim is evident from the supplied pages. The available material does not independently verify the real-world operator, and on-site disclosure status is unclear; this is an identity and transparency matter rather than evidence of fraud. The homepage's public-service subject matter is broadly consistent with a local federation portal, while the unrelated page title should be reconciled through an authoritative institutional source. A separate broker-reputation dataset produced no match and should be treated only as contextual support, not as a licensing or regulatory determination.

EVIDENCE

- The homepage identifies content areas for federation leadership, departments, notices, legal regulations, case analysis, rights protection, volunteering, and child assistance.
- The site provides a contact phone number and email address on its public-facing content.
- The site's TLS certificate is issued by YR2 using Domain Validation (DV) and is valid through 2026-11-02.
- The external reputation checks supplied no malicious or suspicious detections, and the broker-context dataset reported no match.

What to Verify Next

Before credential or payment interactions, an institution should independently confirm that the domain is the official web address of the named county-level federation through an authoritative government directory or an independently sourced telephone channel. Any public-service notices, assistance programs, or donation-related instructions should be cross-checked against the relevant government or federation publication, and payment protection should be retained for any transaction not clearly covered by an official public-service process. The page-title/content discrepancy should also be resolved through that independent institutional confirmation.

EVIDENCE

- The homepage identifies a county-level women’s federation and publishes dated notices, program announcements, and public-service information.
- The site includes legal-regulation and rights-protection sections that can be compared with independently published institutional material.
- The homepage supplies contact channels suitable for independent cross-checking through an authoritative source.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk informational website. No scam, phishing, impersonation, blacklist, or identity-conflict indicators were observed, although the real-world operator is not independently verified and the site’s institutional disclosure remains unclear.

Infrastructure Integrity

The site resolves directly to one likely origin address rather than a CDN edge, with hosting provided by PEG-LA - PEG TECH INC in the United States on AS398823. No CDN or WAF was detected, so the infrastructure provides limited edge-layer mitigation; transport security is nevertheless present through the site’s valid DV certificate.

Closing Assessment

Normal informational browsing is proportionate to the available evidence; credential or payment activity should remain conditional on independent confirmation of the institution, the specific service, and the applicable payment protections.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aiwu5.com.

- The request stayed on aiwu5.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under NameSilo, LLC. [CLEAR](#)

- DNS for this domain is served by dnsowl.com, across 3 name servers. NOTED
- The registration is paid up to 2027-07-09. NOTED
- The earliest public archive of this site is from 2021-11-25. CLEAR
- It is hosted on PEG-LA, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aiwu5.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
