

Is aiyori.org legit? TrustSniffer's high-trust assessment: 80/100

aiyori.org

Verdict

80

OUT OF 100

HIGH TRUST

aiyori.org appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 40%.

What this site appears to be

An informational article about ensuring compliance with Australian workplace safety standards, covering risk assessments, audits, documentation, asbestos risk management, and engaging legal experts. The site includes contact functionality and localised references to lawyers and law firms.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Ai Yori is an informational content website presenting articles on Australian workplace safety, legal compliance, risk assessments, asbestos management, audits, documentation, and access to legal services; its apparent model is editorial publishing supported by lead generation, advertising, or local professional referrals rather than direct financial transactions.

Scam/Impersonation Risk

No scam, phishing, impersonation, blacklist, or identity-contradiction signals were observed. The homepage and featured article present a coherent informational purpose, with no login interface, wallet connection, sensitive-data form, investment offer, or direct payment flow. Available external reputation checks found no malicious or suspicious classification, and no adverse broker-reputation match was identified. The site's historical indicators show continuity without detected repurposing or semantic drift, although the real-world operator remains independently unverified.

EVIDENCE

- The homepage and article page present workplace safety and Australian compliance content, with no detected phishing indicators or direct financial product.
- The contact functionality is a single ordinary contact form with no sensitive fields or untrusted submission destination.
- The domain was registered on 2021-10-10 and is approximately 4.86 years old through the registration record.
- Historical coverage records 8 archive snapshots spanning 2019–2026, with 17 years tracked.

Regulatory Verification Notes

The site provides navigation to About Us, Terms and Conditions, and Privacy Policy pages, but the available evidence does not establish a named real-world operator or independently verified regulatory status. It does not present a license number or regulatory authorization; for this informational and referral-oriented model, that is a transparency and verification point rather than evidence of deception. The article's references to lawyers and law firms should not be interpreted as proof that the site itself is a licensed legal provider. The multi-year registration, known registrar, valid transport encryption, stable hosting telemetry, and absence of adverse content findings are consistent with an established website, while not proving the operator's identity.

EVIDENCE

- The site's navigation exposes About Us, Terms and Conditions, and Privacy Policy pages.
- The domain registrar is GoDaddy.com, LLC.
- Hosting telemetry records AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The TLS certificate uses DV validation, is issued by WE1, and is valid to 2026-10-03.

What to Verify Next

Before any credential or payment interaction arising from a referral, independently confirm the responsible merchant or service provider, applicable return or engagement terms, and available payment protections. Any representation that a referred lawyer, firm, or compliance adviser is authorized to provide professional services should be checked against the relevant Australian professional or government registry. Official workplace-safety sources should be used to corroborate material compliance guidance, and published contact channels should be confirmed through an independent route where the matter is consequential.

EVIDENCE

- The homepage identifies legal and safety compliance topics and references local services in Melbourne, Brisbane, Geelong, and Ballarat.
- The site contains Terms and Conditions and Privacy Policy links that can be reviewed before relying on referral or data-handling claims.
- The observed interaction surface contains one contact form and no login or sensitive-data form.

Summary Verdict

Available evidence supports a high-trust, low-risk posture, and no contradictions were observed. The website appears legitimate and evidence-consistent with an established informational site, but the connection to a specific real-world operator is not independently verified.

Infrastructure Integrity

The site is protected by a Cloudflare CDN/WAF layer, and the observed addresses are CDN edge servers rather than an exposed origin. This reduces direct origin exposure and is a mitigating infrastructure signal, but it is not, by itself, proof of legitimacy.

EVIDENCE

- Observed edge IP addresses are 104.21.2.103 and 172.67.129.20.
- The observed hosting organization is CLOUDFLARENET – Cloudflare, Inc., US.

Closing Assessment

Ordinary informational use is proportionate to the assessed posture; independent identity, terms, and payment-protection checks should precede any consequential credential or financial interaction.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of aiyori.org.

- The request stayed on aiyori.org. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-10. NOTED
- The earliest public archive of this site is from 2010-09-22. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about aiyori.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
