

Is ajanstrakya.com legit? TrustSniffer's high-trust assessment: 95/100

ajanstrakya.com

Verdict

95

OUT OF 100

HIGH TRUST

ajanstrakya.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Turkish regional news website with sections for politics, economy, sports, health and tools such as currency/gold/crypto rates and calculators. Appears to be an informational news portal, not soliciting funds or sensitive credentials.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

What ajanstrakya.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

Ajans Trakya is a Turkish regional news portal presenting politics, economy, world news, sports, health, opinion content, market-rate information, and practical tools such as currency, gold, cryptocurrency, and calculator functions. Its apparent business model is informational publishing supported by advertising, sponsored content, and site utilities rather than deposits, investment services, or credential-driven account activity.

### Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent regional-news model, with news categories and market information rather than a solicitation for funds or sensitive credentials. Technical interaction testing found no login form, hidden form, wallet connection, password submission, clipboard manipulation, phishing behavior, or brand-impersonation indicator. Available external checks did not identify malicious or suspicious detections, although reputation coverage was not complete; this supports an apparently legitimate, low-risk posture for ordinary informational use without independently proving the real-world operator's identity.

#### EVIDENCE

- The homepage is titled “Ajans Trakya - Trakya'nın Haber Portalı” and contains Turkish news sections covering current affairs, politics, economy, sports, health, and local information.
- The homepage contains calculator and search forms, with no sensitive form, login form, hidden form, or untrusted submission destination identified.
- The domain was registered on 2021-04-28 and is recorded as approximately 5.31 years old.
- The site has 71 archive snapshots spanning 2009–2026, with 18 years tracked.

#### Regulatory Verification Notes

The available material is consistent with a news publisher, not a financial or otherwise regulated service. No regulated-service claim, license authority, or license number is identified in the supplied site content; for this business model, that is a transparency item rather than evidence of deception. The legal operator is not independently verified by the available evidence, so the site’s legitimacy should be described as apparent and evidence-consistent rather than proven. A separate broker-reputation lookup returned no match, which is a contextual reputational signal and not a licensing determination.

#### EVIDENCE

- The homepage describes a news-portal function and provides informational market-rate displays for currencies, gold, and cryptocurrencies including BTC, ETH, XRP, USDT, and LTC.
- The recorded registrar is PDR Ltd. d/b/a PublicDomainRegistry.com, with registration extending to 2027-04-28.
- The supplied page analysis identifies no red-flag content, investment-deposit flow, or regulated financial-service proposition.

#### What to Verify Next

Before any credential or payment interaction, an independent check should confirm the organization responsible for the publication, its official contact channels, and any applicable publishing or commercial disclosures. If the site is used only for reading news or viewing rate tools, the observed functionality does not call for additional transaction-specific checks.

#### EVIDENCE

- The homepage’s observed forms are limited to search and calculator functions.
- The site content is characterized as a local or regional news portal monetized through advertising, sponsored content, and site tools.
- No sensitive user-data submission flow was identified during the observed interactions.

#### Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. The principal qualification is that the real-world operator identity remains independently unverified, so the trust conclusion should not be treated as proof of ownership or legal identity.

Infrastructure Integrity

The site resolves directly to hosting provided by guzelhosting - GNET Internet Telekomunikasyon A.Ş. in Türkiye, without a detected CDN or WAF layer; this is a conventional direct-hosting arrangement and is not, by itself, evidence of malicious activity. Transport encryption is provided through a valid domain-validated certificate issued by YR1.

EVIDENCE

- Hosted on AS42846, guzelhosting - GNET Internet Telekomunikasyon A.S., TR; resolved address 89.252.187.3.
- TLS certificate: issuer YR1, validation level DV, valid to 2026-10-31T21:27:36+00:00.

Closing Assessment

Routine browsing is proportionate to the observed risk posture; before entering credentials or making a payment, ordinary independent checks of merchant identity, applicable terms, and payment protections should be completed.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ajanstrakya.com.

- The request stayed on ajanstrakya.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by guzelhosting.com, across 4 name servers. NOTED
- The registration is paid up to 2027-04-28. NOTED
- The earliest public archive of this site is from 2009-03-24. CLEAR
- It is hosted on guzelhosting, from a server in TR. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about ajanstrakya.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
